# PRES. WILSON PRESSES BUTTON AND BLOWS UP GREAT GAMBOA DIKE

Electric Current Sped 4,000 Miles Overland and  
Under Water and Ignited Dynamite Charges  
Placed in 1200 Holes

CABLE FROM PANAMA SAYS CHARGE EXPLODED 2:02

Waters from Gatun Lake Allowed to Float Into Culebra  
Cut 85 Feet Above the Level of the Sea—Last Ob-  
struction to Navigation of the Greater Part of the  
Canal is Removed—Great Dike Was Built in 1908  
to Hold Charges in Check and Delaying Work of  
the Steam Shovels.

Associated Press Telegram  
Panama, Oct. 10.—The  
Gamboa dike was blown up  
at 2:02 o'clock this after-  
noon.

Associated Press Telegram  
Washington, Oct. 10.—A little electric spark which originated when President Wilson pressed the button in the White House was the silent agent which sped more than 4,000 miles overland and under water and ignited the immense charges of dynamite which practically removed the last obstruction in the Panama canal. Electrical experts calculated that within four seconds after President Wilson pressed the button in Washington, the current threw a switch on an apparatus at the Gamboa dike, which in turn set in motion other apparatus which furnished the current for exploding the charges.

The Atlantic and Pacific oceans were not actually united today when the Gamboa dike was destroyed and the water of Gatun Lake was allowed to float into Culebra cut as lake and cut are at the normal surface of the water 85 feet above the level of the sea.

The destruction of the Gamboa dike, however, removed the last obstruction to the navigation of the greater part of the canal by light draft vessels and opens a direct connection between the great Gatun Lake, which already is practically ready to discharge vessels into the Atlantic through Gatun locks and the Pacific division.

The waters of the lake rushing through the broken dike at Gamboa sweep through Culebra cut until they reach the great locks at Pedro Miguel which mark the beginning of the descent of the top level to the Pacific.

The first craft to enter will be the local steam dredges whose work

is to clear and deepen the channel. The presence of small craft in portions of the canal however, does not as yet mean ocean-to-ocean navigation.

This will first be possible when each link of the canal has sufficient depth of water and all the locks working. In the intermediate stage navigation may be effected in local lengths of the canal and to some degree may be extended from length to length along the whole waterway.

Today's event served to demonstrate the nearness of the canal to the operating stage. It also formally brought to a close the work of the central division in the cut, for the dredging operations which are to succeed the steam shovel work will be under a different organization.

The Gamboa dike was built in 1908 to hold the Chagres river in check during its turbulent periods, and to prevent its waters from entering the nine mile section of Culebra cut and delaying the work of the steam shovels. It was important solely from its location. Twenty

## WILL HARNESS THE GREAT FALLS AT WASHINGTON

Associated Press Telegram  
Washington, Oct. 10.—Great Falls, one of the historic and picturesque spots in the environs of Washington, will be harnessed and made to furnish power for light and power to the National Capital, provided Congress is favorable to the recommendation to be made to it by the commission of the District of Columbia. The commissioners today included in their district appropriation of \$7,000,000 to provide for the purchase of the Potomac river waterfalls and the commencement of the work of controlling the river stream.

# 150 Men Register on Second Day of Annual Registration; 18 Women in One Precinct

With a total of about 150 registrations on the second day of the annual fall registration, Newark voters indicated that they were taking a little interest in the approaching municipal election. Thursday's registrations, with the 50 or 60 added a week ago, brings the total number of registered voters to a little less than 7000. This is still less than the total of four years ago when the books of the registrars showed that 7003 voters had qualified to cast their ballots.

At the close of the registration in 1912 but 6586 voters had registered. A number of names were added to the list upon order of the board, but not sufficient to bring the total to

7000. It is still less than this number, even with the 200 secured Oct. 2 and 9.

Probably 50 women in the city indicated their intention to vote for members of the school board, this number having registered yesterday. But one woman placed her name on the books a week ago. In one precinct, 18 women registered while in others no woman applied for permission to register.

Two more registration days are set aside by law for the convenience of voters. Friday, Oct. 17 and Saturday, Oct. 18, the registrars will be on duty at the various voting places at the usual hours, 8 a. m. to 2 p. m. and from 4 to 9 p. m.

# Big Four Passenger Train Wrecked In the Columbus Yards Today

Associated Press Telegram

Columbus, Oct. 10.—A steel horse car which contained eleven horses enroute to the Latonia, Ky., race meeting is credited with having prevented possibility of great loss of life today when Big Four passenger train No. 41, westbound, hit a handcar in this city, and ploughed along the tracks only to strike a split switch later, overturning the engine and throwing it across the track with its pilot thrust into a neighboring yard. The train which was due at the Union Station at 7:30 was running a few minutes late and was going at a higher rate of speed than is usually maintained inside the city limits.

Engineer Kunkle was found pinned under the wreckage of his engine and was very seriously if not fatally injured. Fireman Snyder was also seriously hurt. Six of the eleven race horses bound for the Latonia meeting were knocked down but it is not believed they were permanently in-

jured. The horses were the property of William Walker of Toronto, Canada, and were in charge of William Lee. The latter had a narrow escape from death when a heavy steel rail plunged through the car only a few feet away and penetrated the roof of the car. The train was crowded with passengers and practically all of them, including a large number of Hungarian immigrants, were badly shaken up.

None of the passenger coaches left the rails, this fact being ascribed to the position of the steel horse car which steadied the wooden coaches and held them to the rails, during the wild flight of the train from the time that it struck the handcar at Seventh and Avenue until it crashed into the split switch and derailed and overturned the engine at Eleventh Avenue.

Passengers were brought into the city on street cars.

## FIRE DESTROYS A SIX STORY PLANT AT KANSAS CITY

Associated Press Telegram  
Kansas City, Mo., Oct. 10.—Fire destroyed the six-story plant of a Southern steam mill company in Kansas City, Kan., early today, causing a loss estimated at \$999,979. Ten men on the top floor watched the fire started and who at first were believed to have perished, were found to have left the building safely.

## CONFESSES TO FIRING STORE

Associated Press Telegram  
Chicago, Oct. 10.—John E. Boshart, a well-known character, is alleged to have confessed to having shot State Fire Marshal Donnelly and Deputy Miller to burning his large store containing the best office at Angola on the night of October 7. Boshart, who earlier this morning was arrested

## DALY WAIVES HEARING; IS BOUND OVER

D. D. Daly, manager of the pony contest during the county fair, who was brought back to Newark from New Philadelphia to answer to a charge of obtaining money under false pretenses, Friday morning waived examination and was held to await the action of the grand jury. His bond was fixed at \$200.

Daly, according to the police, interested a large number of boys in a popularity contest, the prize for which was a fine pony. Some of the children, obtaining votes from their friends for which they paid five cents each, contributed as much as \$10, \$15 and \$20. Daly left town without making a satisfactory settlement regarding the contest. He never purchased the pony he contracted for and it is still the property of the woman from whom he promised to buy. Daly asked the police court officials for permission to retain a lawyer when he was told that his case would be sent to the grand jury.

## EMPEROR WILLIAM ORDERS NEW YACHT

Hamburg, Germany, Oct. 10.—Emperor William today ordered from Mexico, the well known Hamburg yacht builder a new schooner to replace his present yacht Meteor. The success of the new boat will have an important bearing on whether Germany will challenge for the American cup with a cutter designed by Oerlik. Oerlik was the designer of the Meteor as well as of the Germania, belonging to Gustav Von Krupp Holten and Halberstadt and several other successful yachts. A new schooner for the emperor is to be built at the Krupp works at Kiel.

## FRANK HENRY DEAD.

Frank Henry, son of Mr. and Mrs. Miller Henry of North Fourth street, died this afternoon at 3 o'clock at the City Hospital, after an illness of two weeks of typhoid fever. The deceased was a brother of Mr. Charles Henry of West Park Place.

## SCORING IS GIVEN SULZER

Castigation Delivered by  
Judge Alton B.  
Parker

## BRACKETT CLOSES CASE

For Board of Impeachment  
Managers With a Vitriolic  
Speech—Balloting of the  
Judges Will Be Next in  
Order.

Associated Press Telegram

Albany, N. Y., Oct. 10.—Never since the impeachment trial of Governor Sulzer opened has he been subjected to such a severe verbal scoring as Judge Alton B. Parker delivered in his remarks for the board of managers today. The castigation came before the court had scarcely settled down to work, the judge merely taking a few minutes of the morning session before giving way to Judge Cady Herriek for the defense.

Before this bar the defendant stands guilty of these offenses charged by the impeachment and proved by uncontroverted evidence, he said.

"Before the bar of the court of public opinion this defendant stands condemned on the further damning testimony of his frantic defenses and his futile efforts to dodge by technicalities the trial of the issues before this high court. In the actions public opinion, with a freedom not committed to judicial opinion finds direct evidence of guilt. That same public opinion takes cognizance of the fact that the defendant is suffering from such a severe attack of moral nearsightedness that even when directed by a myriad of scornful fingers he cannot discern the criminal and dishonorable nature of the acts proved.

"Even justices must see through his severe and somewhat pathetic in this defendant's frantic efforts to cover the nakedness of his wrongdoing. Defiance, justification, prevarication, concealment of his accusers, attempts to suppress and falsify testimony and efforts to cast the blame elsewhere—each in turn has been stripped from his quaking flesh, until he stands now naked before this court without a rag of his attempted vindication clinging to his deformed and mutilated manhood.

"Every disguise has been torn from his back, from the petticoat in which he trusted for safety to the armor of defiance in which he threatened to attack and expose a political leadership to which we have found him suing for a merciful obliteration of his misdeeds." (Continued on Page 15, Col. 4)

## MEMBER OF POSSE KILLED TRYING TO CAPTURE GUN USERS

Associated Press Telegram  
Parkersburg, W. Va., Oct. 10.—Tennison Duffield, one of a posse deputized to arrest Mrs. Ella Lampton for harboring and two of the latter's sisters at Walker, Calhoun county, died in the hospital here today from gunshot wounds received when the posse attacked the Lampton house. Two other members of the posse were seriously wounded and Mrs. Lampton suffered the loss of her left hand. She was arrested but the husband and his sisters escaped. The attack on the house followed the shooting of John Duffield, who Mrs. Lampton asserts was trying to force an entrance.

## DECLARED HOLIDAY.

Associated Press Telegram  
Shanghai, Oct. 10.—A general holiday was declared here today in honor of the anniversary of the foundation of the Chinese Republic. All the ships of the foreign fleets were dressed with flags.

## BURIED IN CAVE-IN AND BADLY HURT

George Search, 21, residing in Conley's alley, East Newark, probably was fatally hurt, in a sewer cave-in in East Main street, near Cedar street, Friday afternoon, and Fireman Will Driscoll of the East Main street fire station was overcome by the heat in attempting to rescue him.

After a half hour's frantic work by a half dozen rescuers, headed by Fireman Driscoll, Search was dragged from under a burden of dirt and gravel which had buried him up to his neck. He was unconscious when rescuers pulled him from the excavation. He was placed in the police patrol wagon and rushed to his home. A physician was summoned and it was said later that he may be fatally hurt, as it is feared the pressure may have injured him internally.

Fireman Driscoll was taken in Bazzler & Bradley's ambulance to his home, in East Main street, three squares from the scene of the cave-in. The attending physician said he did not believe the exhaustion would result seriously for the heroic fireman.

It is said by spectators that Driscoll was one of the first to reach the scene of the accident and that without stopping to remove his heavy uniform coat he jumped into the work of rescue, digging steadily in the solid mass of dirt that surrounded the imprisoned man. Perspiration rolled freely from the fireman as he directed assistants in the rescue, but despite this fact, he suddenly gave out and sank exhausted beside Search, who was unconscious and standing upright in the packing of earth.

George Search is the son of Mr. and Mrs. Frank Search, and was working for the city. It was said Friday afternoon.

None of the workmen seem to account for the cave-in in view of the usual precautions that are taken in sewer work.

## ATHLETICS WIN AFTER A HARD BATTLE WITH M'GRAW AGGREGATION

Twenty Thousand Spectators Present at Shibe  
Park When Game Was Called at  
1 O'clock This Afternoon

## DIAMOND FAST BUT OUTER MEADOWS VERY SLOW

Dull Clouds Screened the Sun While Occasional Drops  
of Rain Fell—Fletcher Fined \$50 by National Com-  
mission for Using Obscene Language to the Umpire  
in Yesterday's Game—Athletics and Giants Workout  
Together in Early Batting Practice.

## SCORE BY INNINGS:

	R.	H.	E.
NEW YORK	0	0	0
PHILADELPHIA	0	1	0
Batteries—New York, Demaree, Marquard and McLean; Philadelphia, Bender and Schang.			

Associated Press Telegram  
SHIBE PARK, Philadelphia, Oct. 10.—The Athletics, champions of the American league won their third victory in the world series of 1913 by defeating the New York Giants by a score of 6 to 5, in the fourth game of the series for the championship laurels of baseball. Twenty thousand people saw a contest in which the Athletics took a six run lead over their opponents only to have it cut down to a scant one run when the New Yorks fell upon the Indian Bender's delivery and with a fusillade of six hits sent five runs over the plate. Bender held the Giants to two hits in the first six innings and then was found freely.

Merkle's home run and Schaffer's three bagger featured the New York hitting. A circus catch by Oldring cut off a run for New York. The Athletics defense was perfect. The Athletics have now won three games and the New Yorks one.

The two teams play at the Polo Grounds tomorrow and Christy Mathewson will undoubtedly face the Athletics. The official box score.

## Splendid Attendance At State Convention of King's Daughters at Granville

[Special to the Advocate]

Granville, O., Oct. 10.—The beautiful autumn day Friday caused the Methodist church here to be filled with the delegates and visitors in attendance at the 20th annual state convention of The King's Daughters. This is the largest convention ever held by this organization, the number registered being 172. This is very favorable compared with only 127 registrations in 1912 and 112 in 1911.

The delegates are loud in their praise of the hospitality of the Granville circle, and other residents of the village who have left nothing undone to make the convention a success.

The convention proper opened with the devotionals under the direction of Miss Hazel Pettigall, secretary of the Y. W. C. A. Hymn 317 was announced and reading was made from the 24th Psalm.

The minutes of the previous day were read by the secretary pro tem, Mrs. Mendel.

The report of the state president, Mrs. Sara F. Gule of Toledo was given.

The report showed 84 circles; 76 seniors; 5 juniors; the membership is 2394. The total amount of money on hand is \$11,052.98.

The president's report was followed by a symposium. The delegates were asked for expressions and presented questions could not be answered.

One member asked what shall one do with a member who assists financially but who does not attend the meetings? The answer was that after four times of tardiness from

the meetings the member was placed on the associate list.

The symposium was divided into four "arcs." The first arc was that of the leader.

The second "arc" was the discussion of the responsibility and ability of the recording secretary. The first paper was given by Mrs. Geo. K. Detweiler, Toledo. A good recording secretary can be of inestimable value to the leader. The secretary's work is in reality a history of the circle. She must always be present and always on time. The books should be present at every meeting.

Mrs. Detweiler's personal books show a complete account of all motions carried, also of all conventions and city meetings. Minutes are placed on extra sheets and the minutes are compiled later.

The attendance record is kept on a separate page. A list is kept of members and their phone numbers. The treasurer's report in her own handwriting is pasted in the secretary's book.

Dr. Charles Bayard Mitchell of Chicago, Ill., was presented to the convention and made a few happy remarks and Dr. Mitchell will appear on the program.

Mrs. Hopley in a delightful way spoke of the love of the circle for their president and she presented the state president with a beautiful cluster of white carnations tied with purple chiffon. Mrs. Gule was wholly overwhelmed and responded with much feeling.

The third "arc" that of treasurer was given by Mrs. Fred Vollmer of Buynus Mrs. Vollmer said that after four times of tardiness from

The tugboat Gatun carried Mrs. George R. Goethals, wife of the man who has had more to do with the success of the Panama Canal than any one else, through the Gatun locks after the water had been turned into them.

# UHLAN'S FAST MILE FEATURED LEXINGTON RACES

(Associated Press Telegram)  
Lexington, Ky., Oct. 10.—The racing division of the Champion stake and October prize were the chief events of today's card of the Kentucky Trotting Horse Breeders' meeting. In the stake race eight pacing youngsters were eligible to start. It is valued at \$2,500 and calls for two heats in three and four heats in four.

The October prize is free for all trot and pace horses in three and four heats in four. Entries included Anvil, Paddy Archdale, Colorado, El and Hot worthy.

Other events on the program were a 2:08 class trot, 2:20 class pace and the 2:12 class pace, unfinished from yesterday.

Uhlán, hatched to a running start yesterday, lowered the world's record for a mile to 1:54 1/2. Uhlán set the previous record at 1:58 last year.

Uhlán was driven by Charles Tanner and was favored with a perfect track and beautiful weather conditions. Trotting in magnificent form, he made the quarters in 28 3/4, 57 1/4, 1:25 1/4 and 1:54 1/2. Horse and driver were given an ovation as the finish when the audience realized that a new world's record had been made.

Cheeny captured the Transylvania stake for 2:05 trotters, the feature of the Grand Circuit yesterday, winning after losing the first heat and coming within a half second of the record set for the event by Ponita Maid in 1909. Cheeny's best time was made in the third when she trotted the mile in 2:04 3/4, equalling her own record.

Silk Hat was drawn before the race started. The first heat was won by Newell, the Texas mare breaking badly and finishing fourth. Fleming held her well in hand, however, in the second and third, and she won with ease in both. In the fourth Peter McCormick made a strong challenge at the turn into the stretch, but broke and dropped back, finishing third. The winner was the favorite in the betting.

In the 2:08 class pace, carried over from Wednesday, Michigan Queen won the fourth and final heat, the last heat in 2:08 3/4, lowering her own record a second and a quarter. She was well driven by her owner Charles A. Valentine of Columbus, Walnut Grove, which won the third heat Wednesday, could not keep up the pace set by the mare.

The 2:12 pace was won in straight heats by A. C. McKendrick's Vastness. Alfreda Todd, driven by Murphy, took second money after finishing seventh in the opening heat.

The 2:12 pace went over until today after Charles A. had won the first heat. J. W. Wilkerson the second heat and Hadrie the third and fourth heats.

## ATHLETICS

(Continued from Page 1.)

to Murphy. Shafer fanned. Murray was hit on the arm by a pitched ball and went to first, muttering at Bender. McLean singled to right, sending Murray to third. Merkle fouled out to Melnik who took the ball over near the Giants' dugout. No runs, one hit, no errors.

Philadelphia—Melnik got a Texas leaguer to center which the flinging Snodgrass could not reach. Strung out sacrificing. Demaree to Merkle. Demaree used a slow drop ball on the outside of the plate. Merkle dropped Barry's foul after a good run. The official scorer gave it an error. Melnik scored. Barry's long two bagger to left. Barry claimed that Merkle interfered with him as he rounded first base but the claim was not allowed. Schang walked after Demaree had two strikes on him. Bender flied out to Burns. Murphy flied out to Snodgrass. One run, two hits, one error.

## PLAYERS WELL SATISFIED

New York, Oct. 10.—With today's game in Philadelphia, the players' division of receipts will cease, but neither they nor the club stockholders have cause of complaint. Since to date \$2,755 spectators have paid \$209,858.50 for the privilege of seeing the Athletics score 14 runs to the Giants nine in three games. Of this sum the players have already \$108,355.59 accruing to their account; the owners of each club reap \$38,118.52 and the national commission \$20,065.85.

TODAY'S SCHEDULE.

New York at Philadelphia.  
Pittsburg at Cleveland.  
Chicago Sox at Chicago.  
Brown Cardinals at St. Louis.

THURSDAY'S RESULTS.

Philadel. 10, New York 2.  
Pittsburg 7, Cleveland 0.  
Cubs 6, White Sox 7 (10 in innings).  
Cardinals 1, Browns 0.

No runs, no hits, no errors.

Philadelphia—Doyle threw a one-hitter. Strunk bounced a hit off Herzog's knee. Barry singled to left and Strunk took third. On Shafer's throw to catch Strunk at third Barry went to second. The New York infield then drew in. Strunk and Barry scored on Schang's single to center. Schang took second on Shafer's throw to the plate to catch Barry. Schang went to third on a passed ball. Schang scored when Merkle made a mess of Bender's grounder. Murphy popped out to Doyle. Oldring singled to center. Bender going to second. McLean threw out Collins at first. Three runs, four hits, one error.

Fifth Inning.

New York—Murray walked. Chief Bender pitching four wide ovals in succession. McLean singled to center and Murray went to third base. Cooper ran for McLean. Schang almost got Cooper napping off first base with a snap throw. Merkle fanned. McCormick batted in place of Demaree. Oldring caught McCormick's fly after a dead run to the diamond. It cut off an almost sure hit and a run for New York. Cooper out, stealing. Schang to Collins. No runs, one hit, no errors.

Philadelphia—The defensive work of the Athletics in the fifth inning was simply superb. Marquard is now pitching for New York. Wilson catching him. Baker fanned. Marquard kept the ball on the far corner of the plate and very low for Baker. Marquard threw out Melnik. Marquard lost control and Strunk walked on four pitched balls. Barry got a two base hit. Strunk going to third. Burns made a gallant try for the ball on the run but he overran it. Strunk and Barry scored on Schang's single to center. The Athletics' fans cried decisively "out in Matty." Marquard threw out Bender. Two runs, two hits, no errors.

Sixth Inning.

New York—Barry threw out Herzog. Doyle beat the air viciously and went out on strikes. Fletcher out on a fly to Strunk. No runs, no hits, no errors.

Philadelphia—Doyle tossed out Murphy at first. Oldring struck out. Wilson throwing him out at first. Collins popped out to Fletcher. No runs, no hits, no errors.

Seventh Inning.

New York—Burns scratched on a bad cold. It was the Giants' third day of the game. Shafer flied out to Herzog. Doyle threw out Strunk. Collins popped out to Fletcher. No runs, no hits, no errors.

Philadelphia—Baker out on a fly to Herzog. Melnik fouled out to Herzog. Doyle threw out Strunk. No runs, no hits, no errors.

Eighth Inning.

New York—Herzog singled to left. Herzog was forced at second when Collins took Doyle's grounder and tossed to Barry. Doyle was forced to second when Bender took Fletcher's throw and tossed to Barry. It was a good stop by Bender and sent off a hit. Fletcher scored on Barry's throw to left. Burns scored on Shafer's three base hit to right. The Giants were hitting savagely. Bender appeared to be injured. Collins threw out Murray. Two runs, three hits, no errors.

Ninth Inning.

New York—Crandall batted in place of Wilson. Collins threw out Crandall. Merkle flied out to Murphy. Grant batted for Marquard. Grant fouled out to Schang. No runs, no hits, no errors.

Shibe Park, Philadelphia, Oct. 10.—Twenty thousand excited Philadelphia fans and some hundred more New Yorkers came out to Shibe park today to see the New York National league champions engage the Philadelphia Athletics in the fourth game of the world's series baseball game. A victory for the Philadelphia team today would make it necessary for them to win another game to capture the honor for 1913, while the Giants would have to reel off three straight to win the series. Still another murky day was furnished for the sport.

Dull clouds screened the sun giving indications of showery weather while now and then a vagrant drop of rain fell. The diamond was in fine condition and the players said it was lightning fast but the outer meadows were sodden and slow.

The New York club came on the playing field ready to make a gallant stand.

Manager McGraw told "St. Louis" that he was ready to take up the pitching burden and the corner. Merkle's moundman to-day.

"Give me half the field the Athletics gave Bush yesterday and we will go back to New York winners tonight."

Some of the Athletics' players admitted that Demaree would prove a puzzling proposition because of his peculiar delivery.

The Athletics were prepared to send either Shafer or the Indian Bender to the pitchers' box while the New York fans believed that Merkle would be the pitcher of choice. Merkle would uncover another sensational thrower, perhaps like Fast, to blast the hopes of the National leaders.

The crowd filled the unscreened stand long before the players came on the field but the reserved sections filled slowly and it was not until the fielding practice had ended that the last of the seats was occupied.

Fletcher, shortstop for the New York team, may not be allowed to continue in the world's series. Complaint was made to the National Commission today by Under-Connolly that Fletcher used obscene and profane language to him after Shafer had been called out at second in the ninth inning of yesterday's game. Connolly goes into details in regard to the language used, some of which he says will not bear repetition.

The commission decided to give Fletcher \$100 for his offense. The commission also decided to permit him to play in the world's series.

The Athletics and Giants would not get together in early morning practice during which Ed Collins and Larry Doyle swatted their turn at bat engaged in a live batting practice over certain plays made during the game. Baker and Herzog who come from the same section on the eastern shore of Maryland were together as usual during the early practice talking over the potato crop down on the farm.

Hundreds of people thronged the roofs of the houses along Somerset and Twentieth streets. There was a life in a cloud a little after a cloud and with the breeze coming out of the west there were better prospects for an uninterrupted game.

With one team determined to even up the series and the other anxious to improve the advantage won yesterday, the New York Giants and Philadelphia Athletics were prepared today to battle their hardest for the fourth game in the world's baseball championship series. Victory for the American league champions would mean that they would have only one more game to win to carry off the blue ribbon of the ball field while a defeat for the champions of the National league would make it quite doubtful if they could recover sufficiently to win three straight and baseball fame.

Now that two of the New York pitchers have met defeat at the hands of the Athletics, Philadelphia fans feel more comfortable and were confident that the home team would triumph today. The victory yesterday of Bush, however the veteran Tressau has measurably increased the optimism of the Athletic adherents as to the final result of the series.

The weather outlook promises fair skies for the day.

Last evening another big throng gathered at Shibe park to wait in line all night for the bleacher gates to open this morning. It was a larger crowd than that which waited in the driving rain of Wednesday's game, due perhaps to the improvement of the weather. The moon was seen last night for the first time this week and an occasional star was visible through the thin clouds. All along the line of waiting fans could be heard praises of Bush and predictions that Mack's young pitchers would give him a good account of themselves before the series ended.

Many Athletic adherent believed that such a victory would be the playing choice of the White Elephant's manager and figured that he would be equally as puzzling to the Giants' adherents as Bush yesterday. Bender, however, was very anxious to go in and there was a strong possibility that his wish might be gratified.

The Athletics have now faced the pitching of Marquard, Marquard, Crandall and Tressau, three of whom are the pick of New York's swirling staff, while the Giants have battled against Bender, Plank and Bush. Each of the Philadelphia pitchers finished his game without assistance but of the New York managers, only Marquard, winner of the wonderful repelling victory against Plank, completed a game.

Manager Mack has Shafer and Brown in reserve while Manager McGraw has Demaree, but neither manager has given any indication as to who he would use. Mack said that he was not worrying a bit about his pitchers.

The result of yesterday's game does not mean that we had young pitchers who could be compared to the Giants' staff. Of course, a pitcher who is equipped with speed does not have to depend so much on good pitching to win. Marquard twirled a wonderful game against us, but I do not think one pitcher can win a world's series. The other pitchers in our corner are just as eager to show in the series. Bush was really disappointed because he had a three run lead when he went in the box yesterday. "Anyone could win that kind of a game," he said. That's the kind of material I have on my pitching staff. It's all I can do to keep them on the bench."

Despite the complete advantage held by Philadelphia of two games to one for the Giants, Manager McGraw appeared not at all dismayed and declared his men had just be-

come to fight. Should they win the series will once more be even. Two in all. Marquard probably would be ready to pitch again in New York tomorrow and is likely to be opposed by one of Mack's youngsters.

In case Bender was Mack's choice today, it is believed by many that Manager McGraw would depend upon "Steamer" Al Demaree to lead his team to victory although Marquard, who was taken out of the game after pitching five innings in the opening contest, a New York said to be anxious to redeem himself and may be given an opportunity.

"Chief" Meyers, the Giants' star pitcher whose finger was split during practice here on Wednesday, was not in condition to take up his duties behind the bat but McGraw had able substitutes in McLean and Wilson, either of whom was likely to be the New York manager's choice for today. Meyers' bad ankle suffered no further injury in yesterday's game and he is expected to play.

As a result of the overcrowding of the roofs of the residences bordering Shibe park on two sides while Wednesday's game was on, the chief of the bureau of building inspection served notice on the property owners warning them that such crowding was dangerous and that the owners would be held strictly responsible for any accident that might occur. It is not believed, however, that this will, to any great extent, deter the householders from again packing their roofs with spectators today. For the first game of the series one household said that he had realized more than \$100 by selling seats on his roof. Today many residents were again preparing their households for occupancy. There were lively times around

Beautiful New Styles Received During This Week

MANY express shipments of the very latest styles in Suits, Coats, Skirts and Dresses have been received this week. ### DEDICATION OF HARTZLER SCHOOL THIS EVENING

With imposing ceremonies the first of Newark's three new public school buildings will be dedicated Friday night. The first to be selected for formal dedication is the Hartzler school, formerly known as the South Fifth street school, and situated at 118 South Fifth street. Dr. Frank B. Pearson of Ohio State university will deliver the dedicatory address.

A feature of the program set for 8 o'clock, will be the presentation of a magnificent American flag, by the Daughters of America. The flag measures 33 feet and will be hoisted to the staff on top of the new building.

The program includes special music by the high school orchestra, conducted by Prof. C. W. Klopp; patriotic songs by public school children and a solo by Mrs. Beatrice Hartzler Davis, a daughter of the late Prof. J. C. Hartzler, for many years head of the Newark public schools, and in whose memory the new building has been named. The singing of "America" will open the program and following presentation of the flag, public school children will sing "Freedom's Flag."

Members of the board of education will extend greeting, and Hon. William E. Miller will respond on behalf of South Side citizens. President Edward Kibler will preside.

Invocation will be pronounced by Rev. G. Thomas Holler, and benediction by Rev. George Bohon Schmitt.

S. W. Haight, clerk of the board of education, will give a financial statement.

The hour preceding the dedicatory ceremony will be devoted to general inspection of the new building.

The two other buildings to be dedicated within the next two weeks are, the Mound school, Grant street, on Oct. 17, and the Keller school, Maple avenue and Stevens street, on Oct. 21. The latter is named in memory of the late David M. Keller, for many years clerk of the board of education.

### IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from acid salts, a noted authority. The kidneys filter this acid from the food and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, stinging sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a stinging sensation and is very profuse. Each time there is difficulty in voiding.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia. It is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, refreshing, healthful drink, which quickly relieves bladder trouble.

### PUBLIC SALE OF LIVERY STOCK

Having sold my lease, I will sell my entire Livery Stock, at my barn, located on North Prospect street, Granville, Ohio, on

Saturday, October 11th, 1913.

### PASTOR STURGEON COMING TO NEWARK

Pastor Mont Sturgeon of St. Louis has accepted an invitation to lecture in the High School auditorium at 3 o'clock Sunday afternoon on the subject "Beyond the Grave." He requests that his lecture be free to all and that no collection be lifted. In many places where he is scheduled to speak, auditoriums have not been sufficiently large to accommodate the crowds that come to hear him, and it is expected that Sunday's turnout will be no exception.

It is claimed that whenever Pastor Sturgeon has used the subject announced for Sunday, many were heard to say that it was the most wonderful sermon they ever heard preached, that for the first time in their lives they were satisfied as to what the Bible teaches on the subject of death and resurrection.

Pastor Sturgeon has been a deep student of the Bible for years and has made a special search in respect to this subject.

### WALTER BROWN HAS LEADING PART IN "DOLLY DIMPLES"

You remember the Elk's minstrel last winter and Walter Brown, the man who made the decided hit of the evening. You are soon to see and hear this clever artist again. Mr. Brown takes the leading part in the "Dolly Dimples" musical comedy. Mr. Brown's work has a professional finish. He possesses an excellent voice, rare talent and artistic ability. He will more than please an audience.

### SYNOPSIS OF "DOLLY DIMPLES" AT AUDITORIUM

The home talent production, "Miss Dolly Dimples," will be seen at the Auditorium in this city Friday evening and Saturday matinee and evening under the auspices of the Visiting Nurse Chapter of the King's Daughters.

At the rise of the curtain Jack and Betty, the counsel's children, are found in the garden planning an adventure to the foot of the rainbow in search of the pot of gold. Upon their departure they are intercepted by their nurse who tells them about the "Big Swamp Boogie Man," and they decide they "didn't want to go anyway."

Dolly, an imaginative young lady is very much elated over the prospects of a real count's visit to her uncle's, which she discusses with her cousin Bess, who has undertaken to be her chaperon in the absence of their aunt, Mrs. De Parks. Bess is disgusted with Dolly's foolishness and tells her that marriage is much like a fire, "run to it and walk back."

Bess decides to outwit Dolly and, with the consent of her uncle, has the count's visit postponed and sends a telegram to Dr. Granville, Dolly's fiance, advising him to send a substitute, which he does. The news of the count's approaching visit is given by Dolly to the six summer girls who are all very much excited over meeting a real count and over the big reception to be given in his honor. The Wizard, Prince of Soothsayers, introduces the bogus count to all the girls, also to Bess and Dolly, who at the sight of this impersonator, begs Bess to hide her somewhere.

In the second act the summer girls have a tea party. They discuss the bogus count and are very much disgusted. The busy valet and Oz amuse the girls with their wit. Things get pretty much tangled up when the real count arrives upon the scene. About this time the bogus count appears and "wonders what is the matter with his eyes."

In the third act all are busy trying to explain the two counts, especially Dr. Granville. Since Dolly seems very much infatuated with the bogus count, Bill, or Will Bill Williams, has his own opinion in the matter. The bogus count himself explains the whole affair, that he is the real count. He by mere chance had been given this opportunity to appear in Newark, Ohio, without a cent of money.

He is a very much in love. But when she discovers she has been deceived, she is very much chagrined. Dolly is at last happy for she is to sign her name the "Countess Von Hoff."

The King's Daughters have been fortunate in securing Miss Margaret Harris for the part of Bess, Miss Harris, of Utica, is a most popular young lady. Bright, accomplished, and possessing an attractive personality. She is gifted with special ability along this line and among her chief charms is the preservation of naturalness in her pleasing delivery.

### THE SIMPLE LIFE FOR THE DOCTOR

ASSOCIATED PRESS TELEGRAM Washington, Oct. 10.—(Continuation of the split skirt, diaphanous dress, and the modern dances that in hide the tango, the turkey trot and the bunny hug, is to be acted on the National Federation of Women's clubs. Dr. E. G. Tolkmann, chairman of the hygiene committee of the local branch of the federation today issued a call for a meeting next Thursday to canvass the situation. A return to simple dress and a reversion to the old time dance is a commendable suggestion.

### Notice of Sale of Bonds.

Notice is hereby given that the Commissioners of Licking County, Ohio, will receive sealed proposals until 12:00 o'clock, noon, of the 25th Day of October, 1913,

for the purchase of bonds of said county, aggregating the sum of \$10,000, for the purpose of providing funds for the improvement of a certain road in said county, and in anticipation of the collection of taxes and assessments made and to be made, with which to pay for said improvement, said road being known and described as follows: Beginning at the intersection of the east boundary line of the County of Licking, Ohio, and the National Road, and extending along the National Road for a distance of about 30 miles in Hopewell, Bowling Green, Franklin, Licking, Union, Harrison and Elms townships.

Said bonds are to be issued under and by virtue of the act, entitled "An act to amend the General Code of Ohio and in accordance with a resolution of the County Commissioners of Licking County, Ohio, adopted on the 10th day of September, 1913."

Said bonds will be dated November 1, 1913, consecutive, numbered 1 to 10, inclusive, and bear interest at the rate of five (5) per cent, per annum, payable semi-annually on the first day of May and November of each year; interest and principal payable at the office of the Treasurer of Licking County, Ohio.

Said bonds are to be in denominations of \$1000 each, 28 of which bonds will fall due on the first day of November, 1915, and 2 of which bonds will fall due on the first day of November of each year, commencing with the year 1916 and ending with the year 1923.

Said bonds will be sold to the highest and best bidder for not less than par and accrued interest. Bids must be made for all or part of said bonds. All bids must state the number of bonds bid for and the gross amount of the bid, and the successful bidder must pay the accrued interest from the date of the bonds to the date of delivery.

All bids must be accompanied by a certified check for five per cent of the amount of the bonds bid for, payable to J. W. Hursey, Auditor of Licking County, Ohio, together with an agreement that if the bid is accepted, the bidder will take up said bonds and pay for the same according to his bid. The Board of County Commissioners of Licking County, Ohio, reserves the right to reject any or all bids.

By order of the Board of County Commissioners of Licking County, Ohio:

C. L. RILEY, Auditor of Licking County, Ohio.

F. T. MERCER, Clerk of Board of County Commissioners.

1913 Fri 4t

### Notice of Sale of Bridge Bonds.

Notice is hereby given that the Commissioners of Licking County, Ohio, will receive sealed bids until 12:00 o'clock noon, of the 25th Day of October, 1913,

for the purchase of bonds of said county, aggregating the sum of \$24,000, for the purpose of providing funds for the construction and repair of bridges in Licking County, Ohio, in anticipation of the collection of taxes to be levied with which to pay said bonds and interest thereon. Said bonds are to be issued under and by virtue of the authority of Section 2124 of the General Code of Ohio, and in accordance with a resolution of the County Commissioners of Licking County, Ohio, adopted on the 10th day of September, 1913.

Said bonds will be dated November 1, 1913, and numbered consecutively from 1 to 24, inclusive, and will bear interest at the rate of five and one-half (5 1/2) per cent, per annum, payable semi-annually, on the first day of May and November of each year; interest and principal payable at the office of the Treasurer of Licking County, Ohio.

Said bonds are to be in denominations of \$1000 each, two of which bonds will fall due on the first day of November of each of the years 1917 and 1918.

Said bonds will be sold to the highest and best bidder for not less than par and accrued interest. All bids must state the gross amount of the bid, and a certified interest to the date of delivery.

All bids must be accompanied by a certified check for ten per cent of the amount of the bid, payable to the President of the Board of County Commissioners of Licking County, Ohio, on condition that if the bid is accepted, the bidder will take up and pay for said bonds according to his bid otherwise the check to become the property of Licking County, Ohio. The Board of County Commissioners of Licking County, Ohio, reserves the right to reject any or all bids.

By order of the Board of County Commissioners of Licking County, Ohio:

C. L. RILEY, Auditor of Licking County, Ohio.

F. T. MERCER, Clerk of Board of County Commissioners of Licking County, Ohio.

# Eligibility of Women

Article 15, Section 4, of the proposed amendment to the Ohio constitution which will be voted upon at the November election, provides for the eligibility of women to hold the position of superintendent and board member of state and public local institutions caring for women and children.

At present the obsolete limitation exists and only men can hold these positions.

By some people this amendment has been erroneously confused with the suffrage issue though the two are in no way related and many who do not favor equal suffrage do believe in the wisdom of this amendment.

The matter has the advantage of being independent of all political complications and being primarily a social measure. It appeals to the judgment rather than partisanship of the voters. There seems to be little opposition to the measure but it is in grave danger of defeat through lack of support due either to want of information or indifference on the part of the voters.

Women are better qualified than men to hold head positions in institutions for children and their own sex. There they must deal with peculiar problems of care and reformation for which they are particularly adapted. They have the same arguments for such positions as men have in positions in institutions for men. The proposed amendment is worthy of support and should be adopted by the people at the coming election.

# Municipal Law Enforcement

Law enforcement on practical, common sense lines is meeting with more general approval in the present municipal campaigns of the state than has prevailed in recent years. But false pretenses as to law enforcement are not in favor. There must be genuine sincerity in the policy and action, for the people have been having experiences that make real sincerity a vital factor.

The mayoralty campaign in Columbus is creating peculiar interest over the state in consequence of the candidacy of George S. Marshall, who made such a humiliating failure when he formerly held the office in the capital city.

Marshall, with the Republican nomination, is having trouble to line up the voters of his party and is foolish enough to boast of his former record in the office, for this only calls to mind the real seriousness of the failure of that record. Certainly Columbus business men would not relish a repetition of Marshall's incompetency, when lawlessness and bloodshed ran riot during a prolonged period in 1910, and the entire military force of the state had to be called to the scene by the governor to protect life and property.

Columbus citizens and business men of all parties should realize that the people of the state have not forgotten that crisis of 1910 and those scenes of disorder which afflicted their capital city.

When our own city was a sufferer from a similar disgrace it quickly freed itself from the crisis by promptly restoring law and order.

But when the state capital was afflicted with those scenes of lawlessness in 1910 it required the presence of several regiments of the national guard for a number of weeks to make life and property safe.

In this connection it is certainly a satisfaction for the Advocate to emphasize the fact that Newark's present Democratic city administration has made a record for law enforcement that speaks for itself. The administration of Mayor Swartz has successfully kept down the violations of law to the minimum. Not in all the state is there a city that surpasses Newark today in the protection of life and property.

# Laying New Sidewalks

Public Service Director McCarthy is receiving commendation from all who travel Granville street and this expression of appreciation will grow as the work now under way progresses.

Some time ago the city council passed the necessary legislation for laying new cement sidewalks on a number of streets, including Granville. Some of the work has been done in various parts of the city but in many cases it has been interrupted through no fault of the service director.

Mr. McCarthy decided to place new walks on Granville street from Fifth to Thirtieth, and the work is now well under way. No opposition to this work has developed. In fact, the property owners are pleased to have the improvement made and the only reason scores have not put down new walks is the fact that others have delayed action. Now that the work is in progress and all of the old worn walks are being removed, several property owners have anticipated action by the city and have placed or ordered new walks put down. It will soon be possible to walk from the public square to the top of Granville street hill on fine new smooth pavements. The cost to the property owner is insignificant compared with the benefits and to the increased value of the property.

Before sloppy winter weather comes there are other streets that should have attention and the public square itself should not be overlooked. There are a few pieces of pavement in the business section that are a disgrace to Newark. Why not put in new walks now while the weather is fine? We have no doubt that Service Director McCarthy will do his full duty in the premises.

# Uncle Walt's Philosophy

**Cold Winds.**

When the winds blow from the Arctic where the snow is piled on the frozen land, then set now we used to wheeze in the days of our youth, for an ice-cold breeze! Oh, we don't look so much like that mistle time, when we cried, "Alack, for snow and rain!" When the winds come through the shore, let us smile a few, and then smile some ancient crouch by the chimney place, an "ouch!" with a gloomy face, and expect a climate hot, let us break a dish on the thought. Let us sweat him twice with a chair, let us pile some ice on his shiver, the north winds hiss, let us say, "Oh, a day as this, though it bust the pipes, it some grier with it's pesky sled, is a big August heat!" Let us all be gay while the warm or the winds be still, though it a day brings storm, it be still.

*Walt Whitman*

# PLAN TO HELP FARM CREDITS

Colorado Springs.—Following the investigation of rural credits and agriculture co-operation in foreign European countries by the American commission of agricultural co-operation, a preliminary report was made to the conference of governors at its annual session held in this city.

The report was submitted to the conference by Senator Duncan U. Fletcher of Florida, chairman of the commission and president of the southern commercial congress, which assembled the American commission. In part it follows:

"The agricultural interests of most of the European countries visited by the commission are organized along one or more of the following lines: Credit, production, distribution and social organization for the betterment of country life.

"Organizations for the provision of credit facilities for European farmers follow the natural division into short time personal credit and long time land mortgage credit. The organizations for the provision of personal credit facilities are as highly developed as are the systems of commercial banking. The prevailing rate of interest paid by the farmers for short time loans is from 4 to 5 1/2 per cent.

"The personal credit organizations have the form of co-operative societies. Very often the members of these societies assume unlimited liability for the debts of the society, while in other cases the societies take the form of

# On Second Thought

One hundred years ago today Romano Skarbozo put the tang in the tango. Prior to that time the dance was said to be in high favor among Quakers and hardshell Methodists.

"It doesn't matter if you have a wooden leg, John, you ought to be able to do the one step beautifully!"

The books say no man over 48 ever had appendicitis. But most of us would willingly undergo the risk for the privilege of being under 48.

Some cases yield to rest and treatment, but the left handed pitcher usually is incurable.

A man doesn't mind getting into evening clothes if they are new.

Most of us respond to the grand hailing sign, but only a few recognize the signal of distress.

So far as the prodigal son was concerned, it might have been worse. His father might have killed a sheep.

Some men prefer a pipe to a cigar. The others lie about it.

A colored man's idea of an imposition is a municipal tax on dogs.

They should have played the world series in Newark. The weather here is fine.

If it were not for the little men, the large women would have fewer dancing partners.

Contrary to the generally accepted theory, no lady can properly support a husband by taking in washing.

# STRONG POINTS

Of the Buckeye State Building and Loan Company, Rankin Building, 22 West Gay Street, Columbus, Ohio.

Sixth. Safety of books and papers. Our books, records and mortgage securities are kept in the first absolutely fire-proof, business and office building in the United States. (See Fireproof Digest, New York, May, 1912; and Building Management, Chicago, January, 1913.) Also the first to be furnished with all metal furniture. No danger of fire in this building. Assets, \$8,000,000. Five per cent paid on time deposits. Write or call for booklets.

# HEALTH HINT FOR TODAY.

**The Best Disinfectant.**  
Sunlight is fatal to the vitality of the lower organisms, and the experiment has proved this to be the case with a number of the most important pathogenic bacteria. It is a well known fact that the chemical activity of the sun's rays, upon which depend their germicidal properties, attain a maximum in the month of May. It was shown long ago that the bacteria of tuberous disease was killed by direct sunlight in from a few minutes to several hours.

Even a mild ordinary sunbath, under the influence of sunlight and disinfectant properties until the environment changes from one which was congenial to the growth of the organism to one which eventually kills it. Sunlight destroys also the toxin of the organism and renders it incapable of harm.

ifty years it has discriminated against agriculture. I am convinced this was not a deliberate blow at agriculture, but arose for the reason that no commercial banking system can be framed so as to adequately serve agriculture. We must have a distinct system to meet the requirements of the farmer."

# SIRE AND SONS.

President Wilson is said to dote on Charlotte Russe, Vice President Marshall loves cherry pie, and Secretary Bryan is fond of cantaloupe.

Dr. Paul S. Reinsch, chosen as the new American minister to China, has been professor of political science at the University of Wisconsin since 1901. He was born in Milwaukee in 1829 and was educated in Berlin, Rome and Paris.

Henry Claws is one of the few American men of business who have been translated into nobility by foreign potentates. He is embellished with the Imperial decoration, the highest honor the emperor of Japan may confer upon a foreigner.

Sir Samuel Walker Griffith, chief justice of the high court of Australia, now on a visit to England, is the son of a Welsh Congregational minister and was taken to Australia at the age of nine. He was called to the Queensland bar when he was twenty-one.

Major General James Madison Drake, respected historian of the Army and Navy Medal of Honor Legion, has held that position for twenty years. During that time he has written 1,500 sketches of the valor of his companions. He is a veteran newspaper man.

# Education Notes.

Practical work in sewing, cooking and other household arts is required in all English schools for girls above the infant grade.

In Minnesota the need for trained teachers of agriculture and domestic science is so great that the School of Agricultural Technology at the state university has taken for its main work the preparation of teachers for these subjects.

The Ohio State university has introduced an apprentice course in animal husbandry that includes two years' study at the university and two years of practical work on a stock farm. The students are paid for their work while on the farm. The plan has interested a number of the leading stockmen of Ohio and other states, and they are co-operating with the university in carrying it out.

# Fashion Frills.

After all, the X ray skirts are only a logical extension of present fashions.—New York Sun.

The latest novelty in dresses is one that has only two backs in the back. Cheers by overworked husbands.—Cleveland Leader.

Newport reports the appearance of the nose veil. If it is anything like the nose bag we are willing to let Newport corner the market.—Chicago News.

The diaphanous skirt originated in Egypt. Crude pictures show it. Probably, if the truth were known, Cleopatra set the style. There is nothing new nowadays.—Portland Oregonian.

# The Royal Box.

King George of England as a boy was a proficient carpenter and can still handle a plane and chisel in the dearest style.

King Alfonso of Spain drinks neither wine nor spirits, nor does his mother, Queen Christina. His consort, Queen Victoria, occasionally takes a glass of wine.

The Kaiser has a highly trained army of valets to look after his vast array of baggage when he travels. He is a great stickler for etiquette, carrying about with him a sufficient number of uniforms to allow for changing his dress every ten minutes if required.

# Pert Personals.

In his new play Bernard Shaw is said to have reached his "climax." We refuse to believe it.—New York Post.

By going back to the time of \$100,000 Fritz Schuff demonstrates her ability to make a success of anything she undertakes.—Washington Post.

Mario Correll is suing an actor who stole part of one of her novels. He will deserve any verdict she may get against him.—Pittsburgh Courier.

Andrew Carnegie gets a grand cross for his Palace of Peace at The Hague. For some of his libraries in America he got the grand double cross.—Philadelphia Ledger.

# Eczema for 20 Years.

Cured by Our Reliable Skin Remedy, Saxy Salve.

For twenty years I suffered from eczema. My skin would break out and itch and burn terribly. I heard of Saxy Salve and decided to try it. After two or three applications I found great relief and before I had used one tube I was completely well. If it will benefit others who suffer from eczema you may publish my letter, as I believe Saxy Salve will do just what you claim it will." A. Prichett, Shelbyville, Ill.

It is astonishing, even to us, to see how Saxy Salve, our new remedy for skin affections, allays the itching, softens, soothes and heals the skin in all sorts of eruptive disorders, such as eczema, barber's itch, ringworm, etc.

It is guaranteed to help you. We cheerfully give back your money if it does not. Frank D. Hall, Drug-gist, Newark, O.

P. S. If you are weak and run down, no strength, no appetite, you need Vinol. We guarantee it.

## Society

The Mystic club was pleasantly entertained on Thursday afternoon by Mrs. Leah Cramer in Tuscarawas street. The afternoon was spent in embroidery and social conversation, also the receiving of one new member Mrs. Schimmel.

At a late hour a two course luncheon was served in the dining room. The guests of the club were Mrs. Woodward, Mrs. Orndorff, Mrs. Mary Paulsen and Miss L. Paulsen of Chillicothe, Mo.

The next meeting will be with Mrs. Harry De Walt in Tuscarawas street, October 16.

Mr. and Mrs. J. D. Keeley will entertain with a dinner party on Sunday, honoring Mr. and Mrs. James J. Keeley of Jackson, Mich. Covers will be placed for twenty.

The initial meeting of the City Federation of Woman's clubs will be held at Taylor Hall at 2:30 o'clock Saturday afternoon. A request is made that not only the executive board be present but that every club woman in the city attend this meeting.

### BENNETT-WEAVER

With all the decorations in green and white and the front parlor banked with a profusion of stately palms, filled with clematis and white blossoms, the wedding of Miss Ruth Eleanor Weaver and Mr. David John Bennett was solemnized at 8 o'clock Thursday evening at the bride's home in Eddy street.

At the appointed hour, Miss Bertha Stevens played the Lohengrin wedding march and the maid of honor, Miss Margaret Bennett of Sistersville, and the best man, F. C. Kent of New York, stretched white satin ribbons, which formed the aisle for the bride and groom. The bride wore a gown of white messaline with an overdrape of white marquisette, with trimmings of lace and pearls. She wore aigrettes in her hair and carried a shower bouquet of white roses and lilies of the valley. Miss Bennett wore pink charmeuse with trimmings of pink silk buds.

The beautiful wedding ceremony was performed by Rev. Joseph A. Bennett, father of the groom, from Sistersville.

Following the service a wedding dinner was served to eighty guests. The table was prettily arranged in green and white, candelabra being used, and the bride's cake was a heart-shaped delicacy with orange blossoms. Seated at the bride's table were Mr. and Mrs. David Bennett, Rev. and Mrs. Joseph A. Bennett, Mr. and Mrs. George Weaver, Mrs. W. H. Weaver, Miss Margaret Bennett, Miss Bertha Stevens, Mrs. Fannie McKee, Paul Weaver, and F. C. Kent.

Mr. and Mrs. Bennett left for a trip east, visiting Niagara Falls, New York, and Atlantic City. Their at home cards read for Philadelphia, 1012 South Fifth street, after November 15. The groom is the son of Rev. and Mrs. J. A. Bennett, formerly of this city, and is private secretary to a prominent contractor in Philadelphia. The bride is the daughter of Mrs. W. H. Weaver of Eddy street, and spent several years as a student at Denison University.

Her traveling suit, was of dark blue cloth, with hat of the same shade, trimmed in ostrich feathers.

The Missionary society of North Franklin, entertained at the home of Mrs. Taylor on Monday afternoon. The house was beautifully decorated with autumn foliage, consisting of golden rod and autumn leaves.

A fine luncheon was served to the following members and guests: Mrs. Savilla Parr, Mrs. James Moran, Mrs. Charles Tavenner, Mrs. Ed Cotterman, Mrs. Dell Ewers, Mrs. Dorie Dunst-himer, Mrs. Allen Swisher, Mrs. Frank Osborn, Mrs. Jane Hurst, Mrs. Ed Taylor, Mrs. Barton Tavenner, Mrs. Ed Bunker, Mrs. Albert Wolfe, Mrs. Leon Wolfe, Mrs. Harvey Lewis, Mrs. Carl Richey, Mrs. Osa White, Mrs. Nick Youse, Mrs. Joseph Watson, Mrs. Bert Watson, Mrs. D. Diggins, Mrs. James Taylor, Mrs. Barton Ewers, Misses Louise Wolfe, Maude Parr, Maude Tavenner, Maggie Taylor, Hazel Taylor, Clara Taylor, Bessie Hankerson, Helen Watson, Rachel Ewers.

The next meeting will be held with Mrs. L. B. Dunn at 1:30 o'clock on November 6.

With autumn leaves and profusions of garden flowers artistically arranged throughout the rooms of her home, Mrs. E. C. Miller of 271 West Church street delightfully entertained with a thimble party Thursday afternoon. During the hours a luncheon was served to the seventy-two guests present.

Mrs. Oscar Brown entertained the La Koudrila Klub on Wednesday afternoon at her home in Pearl street. The chairs were placed in the yard, where sewing was enjoyed, followed by dainty refreshments. Mrs. Pauline Nichols and Mrs. Virgie Bartlett of Beverly were guests.

## Coming Events

Newark's new school buildings will be dedicated October 10, 17 and 24.

Registration days, Friday, Oct. 17 and Saturday, Oct. 18.

State convention of The King's Daughters in Granville, Oct. 10.

Clarence Darrow lectures in Newark, Oct. 15.

"Dolly Dimple" Oct. 17-18.

Victor Murdock lectures Oct. 31.

Election of mayor and other officials in Newark, Nov. 4.

### RIDDLES.

What is the best way to keep a man's love? Not to return it.

What relation is a child to its own father when it is not its own father's son? A daughter.

Why is A like a honeysuckle? Because a B follows it.

How can you remove A from the alphabet? B-head it.

What nation produces the best perfumes? Carnation.

What is the difference between a dime of 1908 and a silver quarter of 1907? Fifteen cents.

Company B of the Old Guards will assemble at Memorial hall Sunday afternoon at 1 o'clock to take part in the discovery day exercises.

Can you play the piano? Then turn your talent into money. We will pay you a salary at the rate of fifty cents per hour for all or a part of your time. You work at home. Permanent position. Ohio Inst. of Musical Art, Dayton, Ohio.

We pay 50 cents per hour for your time. Permanent position. You work at home. If you have other employment, we will employ you for your spare time. You must be able to play the piano. Ohio Inst. of Musical Art, Dayton, Ohio.

Manager wanted for your district. Lady preferred. Good salary. Permanent position. Must understand music. Reference will be required. Ohio Inst. of Musical Art, Dayton, Ohio.

Married women—Earn some money at home. We will pay you fifty cents per hour for your spare time. You work at home. It is necessary that you can play the piano. Permanent position. Ohio Inst. of Musical Art, Dayton, Ohio.

### NEEDMORE.

Mrs. W. H. Varner is spending the week with her daughter, Mrs. Ashcraft, in Newark.

Mrs. George Iden and son Chas. visited her parents, Mr. and Mrs. G. W. Priest, of Pleasant Valley, Friday.

Our school was dismissed Friday that the teacher and pupils might attend the county fair.

Mr. W. H. Varner and daughter, Miss Mae, spent Thursday in Frazeysburg.

Mr. and Mrs. G. B. Martin spent Monday in Perryton.

Elder and Mrs. Z. K. Holliday, of Thurston, spent Saturday night with Mr. and Mrs. George Iden.

Mr. and Mrs. J. W. Martin and daughters, were at the fair Saturday.

### Blind Pension Applicants

Probate Judge Robbins Hunter announced Friday that applicants for relief under the blind pension law are to report at his office in the courthouse Friday, Oct. 17, at 9 o'clock. Each applicant must be accompanied by a physician competent to testify as to the applicant's condition, and by one other disinterested witness.

In cases where applicants show positive inability to be present at that time, other arrangements will be made by the court on receipt of proper notification.

### Girl Can Sing High G

Lillian Bennett, trained only in the public school, of Milwaukee, astonished musicians of that city when she had her voice tested and disclosed a range topped by High G, the highest note ever reached by the human voice. Director Doeppler leaped to his feet when she hit the tone clearly and distinctly and then telephoned to the girl's father to advise him by all means to have the girl given a musical education. Ellen Beach Yaw is the only other woman known to have reached the high G note in singing.

Henri Rochefort and Beranger. One finds an interesting link with the past in the fact that Henri Rochefort began his literary career as a poet and in that character presented a poem, together with a letter of introduction, to no less a literary master than Beranger, whose reply, carefully preserved by the distinguished journalist, is interesting.

"Can it be true," Beranger wrote, "that you are only sixteen? If I had written verses so well turned at that age I should indeed have believed that a great destiny was in store for me. But then you college gentlemen are brought up, as it were, in forcing houses, whereas when I was sixteen I hardly knew how to spell. Remember, then, all the devices employed for the development of your faculties and do not be too uplifted by vanity at the praises of an old rimer, dazzled by your compliments."

And the letter concludes with a commendation to the young aspirant to return to his studies and not to challenge serious criticism by premature publication.—Westminster Gazette.

### To See Through Paper.

A very remarkable experiment which any one can repeat with very little trouble has been unearthed by a German. Take a piece of paper of such thickness that when it is laid upon a piece of printed matter the characters just show through, but cannot be read. Placing it over a printed sheet, impart to it a circular motion to and fro, and to your surprise you will find that now you can read the print below the paper. It is rather difficult to explain this peculiar effect. The explanation offered is that the paper has thin places in it, and by rapidly moving it over the print every part of the printed matter is exposed in turn underneath one or the other of the thin places in the paper, and thus the entire print can be read. However that may be, the experiment is interesting and very simple, requiring for its performance only the simplest means imaginable.—New York Press.

### Helping Her Mamma.

The Youngs had dropped in unexpectedly upon the Baileys just as dinner was about to be served. Mother, who was somewhat disturbed, called Helen aside and explained that there would not be oysters enough to go round and added: "Now, you and I will just have some of the broth. And please do not make any fuss about it at table."

Little Helen promised to be good and say nothing. But when the oysters were served Helen discovered a small one that had been accidentally ladled up with her broth. She could not remember any instructions that covered this contingency, so, after studying the situation awhile, she held the oyster up as high as she could on her spoon and piped out:

"Mamma, mamma, shouldn't Mrs. Young have this oyster too?"—New York Globe.

### Educate the Left Hand.

Dr. Haenkel, a well known German physician, writing in the Hamburg Nachrichten, recommends the education of the left hand as a method of mental development by bringing the right lobe of the brain into activity. He says that in this way we can add 50 per cent to our power and that the left hand is actually more deft and has a more delicate touch than the right. The violinist and the pianist exact the same service from both hands, and many of the greatest artists, such as Leonardo da Vinci, Holbein and Landseer, were ambidextrous. The Japanese are taught in school to use both hands alike, and says Dr. Haenkel, "their astonishing manual dexterity and military genius, I believe, are traceable to this alone."

### Rochefort Was Reckless.

The late Henri Rochefort was a good deal of a man, although we may smile at some of the Gallic eccentricities that marked his cyclonic career. Rochefort did one of the finest physical feats on record when he escaped from Cayenne, to which inferno he had been sentenced for life. He was by no means a young man at the time, but he swam for over three miles in a sea infested with sharks, some of them following him all the way and actually snapping at him. Six years later he fought a serious duel in defense of his son and was badly wounded.—Argonaut.

### Identifying Himself.

It is said that at certain seasons in Scotland when the fishing is not very brisk the fishermen act as caddies and are easily recognized by their costume, a woollen jersey and trousers braided up to the armpits. One of these was asked his name by the gentleman for whom he was carrying and the reply was, "Weel, heroshoonts they maistly ca' me 'Brecks,' but ma 'maiden' name is 'Brown.'"

### An Apt Retort.

"Fools sometimes ask questions that wise men cannot answer," remarked the professor in the course of his lecture.

"Then that explains why so many of us get plucked in our examinations," said the plump student.—Home Notes

### Spring Cleaning.

Jimson—I do spring cleaning at all seasons of the year. Jackson—How's that? Jimson—I'm a watchmaker.—London Tit-Bits.

### Opportunity.

Hewitt—Opportunity knocks once at every man's door. Jewett—And it ought to have enough sense to ring the bell.—Judge.

Nothing is troublesome that we do willingly.—Thomas Jefferson.

A little copper added to steel prolongs the life of the latter.

## A FINE JEWEL GIVEN MR. BEGGS BY THE MASONS

In the presence of a large number of Masons at the regular meeting of Acme lodge Thursday night. Worshipful Master C. W. Kent, on behalf of a number of friends of Mr. Frank L. Beggs, presented Mr. Beggs with a very handsome jewel in recognition of Mr. Beggs' election to the thirty-third degree in Masonry.

Mr. Beggs was taken completely by surprise, but he gracefully acknowledged the gift and expressed his appreciation of the friendship which prompted the act.

The surprise was arranged by Mr. J. L. Worth and while many members of the lodge knew of the purchase of the jewel Mr. Beggs had no intimation of the fact until the presentation took place. Among those present was Mr. Beggs' brother, Charles, of Pittsburgh.

Mr. Beggs held his first Masonic office in 1889, that of senior warden in Vinton lodge No. 131. He has been chaplain of Acme, commander of St. Luke's, Master of Acme lodge, president of the Newark Masonic club, president of the Masonic Temple company and grand marshal of the Grand Chapter of R. A. M., besides holding numerous other Masonic offices. His Masonic record follows:

Petitioned Vinton Lodge, No. 131, Vinton, Ohio, July 5, 1887; Entered Apprentice, August 2, 1887; Fellow Craft, Sept. 6, 1887; Master Mason, Sept. 27, 1887.

Dimit to Acme Lodge, No. 554, Newark, O., March 13, 1902.

Warren Chapter, No. 6, Newark, O.; Mark Master, July 7, 1902; Past Master, July 28, 1902; Most Excellent Master, July 28, 1902; Royal Arch, Aug. 4, 1902.

Bigelow Council No. 7, Newark, O.; Royal Master, Oct. 1, 1902; Select Master, Oct. 1, 1902; Super Excellent Master, Dec. 3, 1902.

St. Luke's Commandery, No. 34, Newark, O.; Red Cross, Sept. 30, 1902; Knights Templar, Oct. 28, 1902; Knights of Malta, Oct. 28, 1902.

Aladdin Temple Mystic Shrine, Columbus, O.; Shrine, Nov. 28, 1902.

Ancient Accepted Scottish Rite, Columbus, O.; Enoch Lodge of Perfection 14th, April 20, 1904; Franklin Council, Prince of Jerusalem, 1904.

April 21, 1904; Columbus Chapter, Rose Croix 18th, April 21, 1904; Order of High Priesthood, Sept. 25, 1912.

Elected Honorary 33d, Oct. 2, 1912; Crowned at Philadelphia, Pa., Sept. 16, 1913.

At last night's meeting of Acme Lodge 55 petitions were received.

### Silk Manufacturer Who Left Millions to His Employees

When Herman Simon, perhaps the largest silk manufacturer in the United States, died at Easton, Pa., the other day it became known that he had left a third of his fortune, estimated at \$9,000,000 to his employees. His was a business which he had spent thirty-six years in building, and he had come to the conclusion that his employees were entitled to some of the profit.

To his widow he leaves his two houses in Easton and his residence at Union Hill (N. J.), his life insurance and \$10,000 in cash. The residue of his estate is to be divided into 2,000 parts.

Of these parts Elizabeth Mary Simon, his wife, gets 666, his sister, Mrs. Emily Elbert of Frankfort-on-the-Main, Germany, 350, Mrs. Grace Bixler of Easton, daughter of Mrs. Simon by her former husband, 307 parts.

The remaining 877 parts, about one-third of the estate, are divided among twenty-three persons, most of them employees, who receive from one to 155 parts apiece.

The will provides that if any of the beneficiaries have left Mr. Simon's employ or are dead their share is to be divided among the others. Direction is made that the beneficiaries shall form a corporation to be known as the R. & H. Simon Company and continue the business. The will was dated June 25, 1906. There were no public bequests.

Mr. Simon's mills at Easton and Union Hill employed about 2500 hands.

**THREATENED BY WAR.** (Associated Press Telegram) Cleveland, Oct. 10.—Police reserves were called out here today to save a street car crew from a mob of 2,000 persons who were enraged because the car had run down and probably fatally injured Ethel Greenberg, aged ten. The girl was crossing the tracks and had failed to see the car coming.

**THE FORWARD-LOOKING WOMAN**  
versus  
**THE FIRESIDE WOMAN**  
By Barbara Boyd

**How to Make Woman Most Womanly**

"I wonder why people have the idea that if woman is not bound by certain restrictions she will be less womanly," mused the Forward-looking Woman.

"But she will," asserted the Fireside Woman.

"Why? Is womanliness a thing she has so little liking for, that the minute she gets a chance, she is going to fling it away? For my part, I quite agree with George William Curtis. 'We will know what is womanly in the same sense that we know what is manly, only when women have the same opportunity for development and the same liberty of choice, as man. If the instincts of sex, of maternity, of domesticity, are not persuasive enough to keep women in the tract some women, it is the most serious defect yet discovered in the divine order of nature.' I think when she is left absolutely free to develop herself as she pleases, she will develop a far finer type of womanliness than she has at present."

"I don't see how she could be more womanly," objected the Fireside Woman.

"That's just it. She hasn't been given a chance to be more womanly. She has been told, 'Thus shalt thou go and no farther.' She has developed herself up to this limit, and then she has had to stop. But let her get out into the open, now, with no restrictions, and I think we shall see a far finer type of woman than the world has yet known. And if the woman instinct isn't strong enough in her to keep her a woman, denying her suffrage and her rights isn't going to do it. The trouble will be, just as Curtis says, with the divine order of nature. You cannot make a woman womanly by clapping a garment marked 'Womanliness' on her and making her wear it. And anyway, that sort of womanliness wouldn't be worth anything. For my part, I am anxious to see the new womanliness, the true womanliness; for that is what it will be, when woman can evolve it herself, without restriction or bias."

"What do you think it will be like?" asked the Fireside Woman.

"It will be too fine and big a thing even to glimpse now. We are not near enough to it, even to its beginning, to be able to predict what the nature of it will be. But I think we can say there will be no less tenderness and gentleness and love; but there will be none of the pettiness, the smallness, that mars woman now. This is part of her because she has been shut in to small things. The future woman will be broad, tolerant, because her vision and her activities will be big. From the past, she will retain all that is good, because that is inherently part of her woman's nature, but she will lose the little petty defects that have resulted from her restricted environment. And she will replace them with the fine big qualities gained from her freer life."

Barbara Boyd.

**Free to Mothers**

**Vanta Vest**

Here is a little vest that hasn't a button on it and doesn't require a needle and thread. It's made of Vanta Vest. It's double-breasted, giving extra protection where nature demands it, and never rips. The lower fastenings are the same as the upper ones, so this vest never works up.

Made in Cotton, Cotton and Wool, Silk and Wool, and Silk and Wool—all weights.

Sizes—Bust to 9 years. 25c to \$2.00.

# FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels—Children love it.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

## SPLENDID

(Continued from Page 1.) mistaken idea prevailed regarding the importance of the office of secretary "prayerfully" is not sufficient to be successful. The old system can be simplified by the multi-column book and the speaker gave an illustration on the black-board all bills should be paid by check.

The annual report should not be overlooked. Accept no moneys with out a receipt.

The fourth "arc" committee was given by Miss Ellen Brady of Fremont. In order to have a perfect circle it is necessary to have perfect parts. The necessary committees are: First and of greatest consideration the devotional committee; Bible study committee; good cheer committee; charity committee; entertainment committee; auditing and press committee.

Another phase is the attitude of the leader to our committees and the attitude of the committees to their work.

If the leader insists that her ideas replace those of her committees she will have a one idea circle.

How do the leaders appoint their committees? Try out your new and backward members as chairman of the committees. The result is more often a pleasant surprise.

Announcement was made for a meeting of the resolutions committee immediately after adjournment.

The meeting was then turned over to the "Summer Association," which is a feature of the educational work assumed by The King's Daughters. Mrs. Lulu Adams, president of the board of trustees made the report for the association.

The minutes of the previous meetings were read and adjournment was taken.

### Thursday Morning

After a short intermission at 10 o'clock roll was called and 120 delegates responded.

The state secretary, Miss Vonda Worst of Fremont, was unable to be present and Mrs. George Mendel of Steubenville, was appointed secretary pro tem of the convention.

Miss Geraldine Hard of Marion, state treasurer, made her report. The state dues collected amounted to

\$374.40; county dues, \$256. Total dues, \$630.34. The disbursements by the secretary amounted to \$638.77. Balance in the treasury \$271.59.

Reports were then made by the city unions.

The county secretaries responded with a short synopsis of the year's work. There evidently isn't a "poor" circle as each report dwelt at length upon the strength of the finances.

### Thursday Afternoon

The afternoon session opened with Mrs. McBride of Wooster as the leader in the devotionals. She asked that all sing Hymn 317, and followed it with the scripture lesson from the 25th chapter of Matthew, 35th verse. Mrs. McBride spoke of her firm belief in the "spirit filled life." St. Paul spoke of it, and she counseled that the members pray. Not necessarily to fall upon the knees but to uplift the mind and heart to God and commune with Him. Her last counsel was to cultivate the spirit of prayer.

The president, Mrs. Sara T. Gule, named the following on the "place of meeting" committee: Mrs. Adams of Fostoria, Miss Ashbrook of Newark, and Miss Ford of Marion.

Mrs. Willison made the report for Franklin county. She spoke of the work done by the circles and especially of the work done by the colored circle whose membership is made up of working girls.

The report of Montgomery county was made by a representative from the two circles in that county. The secretary from Montgomery county was not able to be present.

Miss Charlotte Wilson made the report from Muskingum county. The flood conditions played havoc with the work in Zanesville. More was received in Muskingum county than was given. Granville was the most generous donor.

The report from Sandusky county was made by a substitute for the county secretary, who was unable to be present.

A report from Seneca county was made by Mrs. Wise. Her report showed the excellent work accomplished by the Willing Workers' Circle.

Tuscarawas county report was given by Mrs. Clewell.

Miss Adelaide Stacey made the report for Washington county, which concluded the reports of county secretaries.

The president announced that in order to allay the tediousness the solo would be taken out of its place on the program and transferred to follow the reports.

"One Sweetly Solemn Thought" was given by Miss Lena Ramsower, a soprano.

Mrs. W. D. Fulton of Newark was next introduced by the president. Mrs. Fulton spoke on "A More Excellent Way." Mrs. Fulton said there were fluctuations in human progress. But that nature was the mirror of Divinity.

If by love we may perfect the whole law. Christ before sending out His disciples breathed upon them and they received His gifts. Every endowment may be received but without God's love they amount to nothing. In the spiritual as in the natural world each is judged according to his deeds. Christ makes no requirements without making provision for His requirements. Christ gave us an example in Himself. He gave us an example of service and obedience. The constituents of a great character can only be upheld by constant application to service. The pity of an infinite God poseth all conception. The character which is awarded a place by the throne must be deep, not shallow. A character with God as a spring is the magnet drawing all men to it.

Christ speaks to us just in the same way as He spoke to those twelve disciples. Why should we become discouraged in our work, with all Heaven working with us for salvation. Divine love comes to the rescue of the wanderer and brings him back to God and salvation.

Through love we obtain a realization of God. It is the privilege to human beings to be the channel through which God's love may be transported. Patience, kindness, generosity, good temper, go to make up the true Christian man.

The credentials committee was called upon to make its report, which was given by Mrs. Montgomery. This is the greatest convention ever given. There were 144 credentials and 172 registered, as compared with 127 in 1912 at Bucyrus and 112 at Bellefontaine in 1911.

The question box, which was to have been conducted by Mrs. Clarence Burton, was postponed until Friday morning.

The report of the tellers was given on the nominations, 113 votes being required to nominate. The following was the vote:

Central Council Member—Mrs. Waldron, 55; Mrs. Gule, 6; Mrs. Willison, 5; Mrs. Colton, 3; Mrs. Montgomery, 1. State President—Mrs. Gule, 113.

Assistant State President—Mrs. Caldwell, 50; Mrs. Gallinger, 32; Mrs. Fulton, 11. Others receiving votes were Miss Bailey, Miss Hoover, Miss Bond, Mrs. Hopley, Mrs. Carrie Cory.

Recording Secretary—Mrs. Mendell, 61; Mrs. Horton, 14; Mrs. Worst, 11. Others receiving votes were Mrs. Goodline, Mrs. Harry Adams, Mrs. Wendall and Mrs. Will Buxton.

Executive board—Lillian Jones 45, Mrs. Slinchcomb 19, Mrs. Fulton 17. Others receiving votes were Mrs. Liebner, Mrs. Naugle, Mrs. Harry Adams, Mrs. Willison, Miss Carrie Cory, Mrs. Caldwell, Mrs. Truax, Mrs. Vertz, Miss Bond, Miss Barnes, Misses Ford, Blake, Calton, Hopley, Weber.

After the "quiet hour" conducted by Mrs. Arthur Aylard of Medina, O., adjournment was taken at four o'clock so the convention could attend a recital given at the Baptist church. The program included organ violin and vocal solos by members of the Conservatory of Music.

### Thursday Evening

Thursday evening's session was a public one and every seat in the church was taken and extra chairs were placed to accommodate the visitors. The devotional services were led by Rev. J. T. Newell of Granville. For the scripture lesson Rev.

Mr. Newell selected excerpts from the 25th chapter of Matthew.

The devotionals concluded with a fervent prayer led by the Rev. Mr. Newell.

Miss Allieret Chrysler of Granville who possesses a soprano voice of great beauty sang a delightful solo. Owing to the fact that Mrs. Henry Whitworth of Ada could not be present on Friday afternoon her paper, "An Inquiry into the Motives of Christian Giving," was given first on Thursday evening. Mrs. Whitworth said that never was there an age when there was not caring for the needy and unfortunate. The spirit of caring for the lowly one is leveling humanity. She asked that all consider why each one was a King's Daughter.

She told of how modern progressiveness has solved many of the domestic duties and then questioned if the work of The King's Daughters meant to them only a natural outlet of latent energy.

If that be the reason then the reward is received in the work, but if there be a higher motive for giving them it must be found in Christ. If we have not the spirit of Christ then we are not of him.

"Daughters of The King shall we not ask for this spirit of love?" was her appeal.

What is the world's need and how shall we meet it? The world needs its King and allegiance to Him. If every professed follower of Christ be but a true Christian the world would need no missionary.

Mrs. Whitworth asked that the needy who have been helped be also aided in the spiritual way, and suggested also that the circles pray for the objects of their love and charity.

Mrs. Whitworth was followed by Mrs. Clarence G. Burton, state president of Virginia and was warmly welcomed. Mrs. Burton is best loved by The King's Daughters and said that after Virginia Ohio came first.

Mrs. Burton spoke of the Book of Genesis and told of how Christ came from the house of Juda.

She then told the convention she would speak on the responsibility—in the home—in the church—and in ourselves.

Mrs. Burton dwelt at length on the responsibility of motherhood. Young America needs more reverence. The speaker asked if the child was being trained in reverence and adoration.

Make the home lovely, pleasant and bright not merely the four walls "If the face wants to smile let it, if it doesn't want to make it" was her admonition.

Rest is the true idea of happiness. "Rest in Me," said Christ. The personal responsibility in religion is this "love God and God is love."

"When Sunday comes no greater responsibility rests with the minister to be in his pulpit than for you to be in your pew."

Nothing causes any boy or girl to lose their enthusiasm than to criticize.

"Those who welcome a stranger to church feels the responsibility in the church. If we are loyal to our home life, loyal to our church then we will want to be loyal to The King's Daughters."

The speaker said many people have acquired the idea that the order is merely philanthropic. She said that the one mistake the order made was that it permitted the members to enter the order too lightly. One enters the order to still Christian activity. Too much responsibility is placed in the leader and there is not enough individual effort.

Mrs. Burton illustrated her address with word pictures and short stories.

"The order must be near your heart." The order is to do everything but must never neglect the spiritual part.

In closing the speaker said: "God is love, and if we love Him we will keep His commandments and if we keep His commandments we will all go home to Him."

Mrs. Sarah Gule, the presiding president announced that an auto ride had been planned by the people of Granville for the delegates on Friday morning at 7 o'clock to last an hour.

### CONVENTION NOTES

Mrs. Clarence G. Burton, state president of Virginia, is one of the honored guests of the convention.

Mrs. Sophie T. Waldron of Toledo, O., member of the Central Council, is one of the many delightful women in attendance at the convention, and her presence is much sought for.

The decorations in the Methodist church were especially attractive. Purple and white was much used in the drapes, and palms and autumn flowers were used at the chancel rail.

"Not to be ministered unto but to minister," is the keynote of the work of The King's Daughters. This slogan surmounts the organ and the banner is plainly discernible.

Luncheon was served to the delegates at the Presbyterian church, by the ladies of the church on Thursday. Much trouble and inconvenience was suffered by the delegations from northern Ohio, owing to bad connections and roundabout railroad facilities.

Miss Hord, state treasurer, spoke in behalf of a King's Daughter pennant, which is purple and white with the cross and the letters "I. H. N."

A special meeting of the county secretaries was called to meet with the president, Mrs. Gule, at 8 o'clock Friday morning.

The tables presented a beautiful appearance and the appointments were delightful at the luncheon and dinner served by the ladies of the Methodist church in the Presbyterian church on Friday. The delegates were loud in their praise of the cuisine, and it added greatly to their convenience.

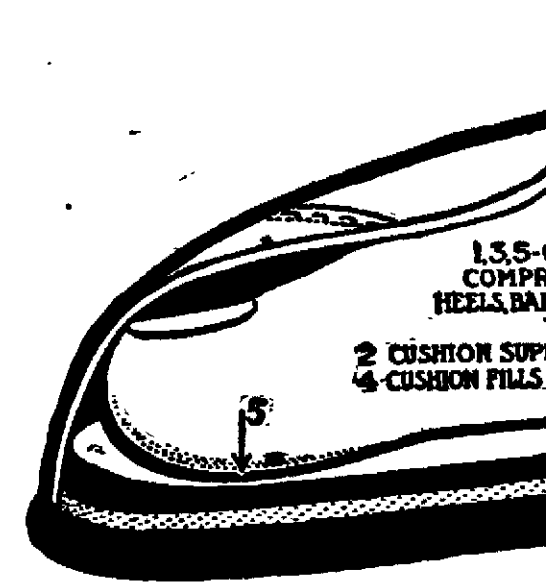

Better babies' movement has reached Japan, and competitive examinations are on in Tokyo schools.

Sweetheart Soap Coupon worth 5c is in today's Advocate. Clip it.

# Like Walking On Air

Dr. A. Reed Cushion Shoe

That's what every one of our customers that wears a Dr. A. Reed Cushion Shoe says: "It's like walking on air—my feet haven't ached for ages!"

And we're mighty sure that you'll say the same thing—if you wear Dr. A. Reed Cushion Shoes for just one day. For they're the easiest shoes on earth. Nothing else like them for folks that walk much. They fit easily the first time you try them on.

And then the soft cushion insole shown in the illustration spreads into and fills the hollows of your foot—supports it with a cushion—and distributes your weight so evenly that you walk on the whole sole of your foot instead of just the toes and heels. That's the secret of its comfort. That's why people that wear Dr. A. Reed Cushion Shoes never suffer from aching, burning feet.

Why not drop in tomorrow and see the line we have—many new styles and comfort guaranteed in every pair. Will you let us "show you" tomorrow?

## SCORING

(Continued from Page 1.)

deeds and offering the bribe or submission.

"And to this court we shall commit the decision of the case against William Sulzer securely confident that the honor, safety and welfare of this Empire state are assured of the protection contemplated by the constitution in the creation of this high court."

(ASSOCIATED PRESS TELEGRAM)

Albany, N. Y., Oct. 10.—The trial of William Sulzer, the impeached governor of New York, was brought up to the stage of the balloting of the judges today by former State Senator Edgar T. Brackett, who closed the case for the board of impeachment managers with a vitriolic speech.

In the course of it he asserted that former State Senator Stephen J. Stilwell, who is now serving a term in Sing Sing prison as a barterer of his legislative vote and influence "might have sat at the feet of Governor Sulzer and learned crime."

"And this is the pharisee," he said, pointing to the width of his phylactery in proof of his own virtue, demanded that Stilwell resign—Stilwell, who if all charges against him were true, and more, could still have sat at the feet of this man and learned crime, even as Saul sat at the feet of Galilee and learned all the wisdom of the ancient Jews."

From the beginning of the impeachment proceedings, Mr. Brackett declared there had been a persistent and studied attempt to terrorize the members of the impeachment court, and every person associated with the prosecution. "Every means known to the demagogue has been attempted to accomplish it," he said.

"Political extinction has been threatened to those bold enough to urge that it might be well to have an orderly investigation of the matters charged against this man. Counsel have been warned that their appearance for the people here would result in savage attacks upon them. We have witnessed the indecency—for I think it can be called nothing less—of public meetings called to over-awe your judgment and to give you instructions how to decide this case before a single word of the sworn testimony had been given to you. In season and out, it has been preached that justice would not be done here, when justice was the last thing desired by the preachers."

Mr. Brackett launched into a discussion of the evidence supporting the accusations in the fourth of the articles of impeachment charging that Governor Sulzer sought to prevent testimony before the Frawley committee. The attorney held that the alleged attempt of the governor to dissuade Henry Morganthau from testifying in regard to his \$1,000 campaign contribution.

"The damning character of the defendant's request is apparent at a glance," continued Mr. Brackett. "He wanted Mr. Morganthau to perjure himself to save him, the defendant, from the result of his previous crime in not reporting the Morganthau contribution made to him during the campaign and thereby brought himself precisely within the section of the code and precisely within the article."

The alleged request of the governor to Duncan W. Peck, superintendent of public works that he deny his contribution of \$500 under oath Mr. Brackett placed in the same category.

"The testimony of Allan Ryan is still to be considered," he continued. "It stands here without contradiction of any kind. This defendant asked him to see Senator Root and have members of this court solicited to vote in his interest, to dismiss these proceedings; failing that, to see Mr. Murphy for the same purpose, saying he would do whatever was right if he

# Will You Too, Select Your New Autumn Clothes Here Tomorrow

In Your Search For Fall Apparel you Should Bear In Mind the Fact That This Store is Recognized as the Clothing Center of Newark

The one great source of supply to which thousands of young men and old—men in all walks of life, and from all over Licking county, look for their outfit year after year. # THE Scotch Woollen Mills Co.

OHIO'S LEADING TAILORS AND WOOLEN MERCHANTS. E. P. GRUBER, Mgr. 25 NORTH THIRD STREET Auto Phone 1838

could be freed from the impeachment proceedings.

"This is the black evidence convicting him under Article 4.

"Knowing full well, appreciating to the utmost the disgrace and degradation that must come upon this most unhappy man by your verdict of guilty, I still beg you not to think you will mitigate his punishment by a judgment of acquittal of the charges here proved. It will not be your action that will render him infamous for all the future. That future is already his before you speak. If he takes the wings of the morning and flies to the uttermost parts of the earth, the record of his disgrace is there before him to meet and greet and abide with him."

"And so we leave this case with its vast interests to the interests of all who love the state and are jealous for its honor and good fame in your hands; leave it with all that it means to the people and the future. Words fail me in the contemplation of all that your decision means. If it ever pleases the Father of us all to guide with his own hand those engaged in the performance of the great public duty, may that guidance be yours, this date, and may the decision here rendered bear sure impressions that it comes from a wisdom that maketh judgments far above the twilight judgments of this world."

Our Manufacturers Fur Display

Will close tomorrow. In addition to our own extensive line of sets and coats, our furrier has sent us many of his choice and novel sets to display during our opening week. Separate scarfs, boas, muffs and fancy sets, also an extensive assortment of plain and trimmed fur coats.

IT'S A GOOD TIME

To pick your Christmas furs. The early furs are choice and selected skins. Later in the season the same perfect pieces can hardly be matched because the furrier has used his choicer skins early.

Don't Wear Ordinary Underwear Wear The Merode

Have you ever noticed—it is a common experience—how some underwear comes back from the wash—shapeless and shabby—you hate to put it on. It's because the garment is stretched and pressed into shape and then it washes all out of shape. Not so with "The Merode." They are knit so perfectly, reinforced and finished so carefully that even after a year's wear the fit and appearance is just as fine as new.

Notice the hand-finish on the edges and seams; also the hand-finished crocheted necks. It's the beautiful underwear—remember you can get all sizes, regular and outsizes. All weights in cotton, wool and mixed fabrics. All length sleeves and legs in THE MERODE UNDERWEAR.

"Perrins" the Great Glove Name

Our New York buyer who is constantly in and out of the New York market wrote us just yesterday that there was no \$1 glove on the market that compared with "The Perrin"—our new importation has just been received and we want to impress upon you to ask to see

Our Corona Glove Only \$1 a Pair

A fine quality French lambskin—soft of texture and elastic enough to make a snug fit and yet firm enough to hold. We also carry a full line of The Real French Kid, a beautiful quality, cut with the most exacting skill. Those of our customers who wear this kid glove are constantly speaking of its pleasant qualities. Ask to see OUR REAL FRENCH KID GLOVE, \$1.50 A PAIR.

W. H. Mazey Company

PUBLIC INVITED TO INSPECT PLANS FOR THE SUBWAY

The campaign looking toward the issuing of bonds by the city for the elimination of the grade crossings from First to Sixth streets, inclusive, is primarily a campaign of education. There is absolutely nothing about the plans and specifications or the campaign itself that is to be kept under cover. The closest scrutiny and investigation of the plans on the part of the public generally and of voters particularly is invited. It is the duty of every voter to closely scrutinize and investigate the plans and specifications and thus inform himself as to the merits of the question, before he casts his ballot. Plans, estimates and blue prints showing the general plan of the project may be seen at the headquarters of the South Side Improvement Association, 706 Newark Trust building, where the public generally is invited for the purpose of studying this proposition. The headquarters will be open not only throughout the day but, in order that those who cannot come during the day time, may have the opportunity of seeing them, the office will also be open in the evenings.

There has probably been some misapprehension as to the true character and nature of this proposed improvement. It should be more properly designated as a project for the elevation of the railway tracks than a subway. The actual lowering of the grade of the several streets is very small, in fact at most of the streets it will not amount to very much. The space required in order to make it possible for pedestrians and vehicles to pass under the railway tracks is secured more by elevating the tracks than by lowering the level of the street. This will become apparent from the fact that at Sixth street the tracks will be raised about twelve feet above their present location; at Fifth street they will be raised between fifteen and sixteen feet; at Fourth street about fifteen feet above their present location; at Second street about nine feet above their present location and at First street about seven feet above their present location.

The greatest cut in the grade of the street will be at First street where the level of the street will be lowered about ten feet; the cut at Second street will be about seven feet; at Third street between four and five feet; at Fourth street between four and five feet; at Fifth street between two and three feet and at Sixth street about five feet. It will thus be seen that this improvement will not seriously affect or injure the grade of most of these streets; nor can it possibly result in any considerable injury to adjacent property. There will be very few cases in which any valid claim for damages can be made.

PRES. WILSON

(Continued from Page 1.) four miles to the north the mighty Gatun dam, which, to the uninitiated appears to be nothing more than a low mountain range stretched across a valley, keeps the waters from Gatun lake from escaping to the sea. These two barriers, one the greatest man-made dam in history and the other, a low ridge of earth and rock which would ordinarily pass unnoticed, have kept in check the rising waters of Gatun lake. Today there is only one, and the waters of the lake now extend from Pedro Miguel lock on the south to Gatun Locks on the north, a distance of about 23 miles, approximately two thirds of the canal's length.

Drills were at work on the dike nearly the whole month of September and it was mined with over 12,000 holes charged with dynamite. The barrier contained about 50,000 cubic yards of material or the same number of two horse wagon loads.

CELEBRATE THE BLOWING UP OF GAMBOA DIKE

San Francisco, Oct. 16.—San Francisco today celebrated the blowing up of Gamboa dike on the Panama canal. Bombs, bells and whistles were to accompany the cheering of thousands of citizens assembled at Union Square. There was a program of patriotic songs, addresses and the raising of the American flag by Miss Annette Rolph, daughter of the mayor and a parade.

FRAMPTON

EXPLODED A BOMB

(ASSOCIATED PRESS TELEGRAM) Milan, Italy, Oct. 16.—A bomb was exploded today in the vicinity of the Royal Palace and the archbishop's residence. No damage was done to the buildings, both of which were unoccupied.

NEWARK'S DEPENDABLE STORE MAKES MERCHANDISE THE MOST EQUAL EXCHANGE OF VALUE AND MONEY

This is the store that is always alert to the opportunities in the world of merchandise to best serve its customers. The whole store is a fashion show presenting all that is newest and best in Fall merchandise of every description. The styles are not like some you have seen—just beautiful to look at, but entirely unsuitable for wear by sensible people. Each style shown here has been selected with our usual fine discrimination and besides being absolutely correct is very practical and just the style that will be worn by smart, sensible dressers all over the country. We cordially invite you to inspect our great showing.

Why You Should Select Meyer & Lindorf Ready-to-wear Garments —FOR WOMEN, MISSES AND CHILDREN—

We always insist that every maker who makes up our ready-to-wear garments puts into them a special grade of lining in a certain manner so the garment will hold its shape, also that every yard of fabric used is thoroughly shrunken before it is made up, and then in the end our prices show a saving in dollars at the purchase.

VERY PRACTICAL SUITS AT \$12.50—These suits are very pretty neatly tailored, women and misses sizes, in fine soft wool serges; coats are cut to fit, elegantly lined. Wonderful suits for only \$12.50

MANY STYLE SUITS AT \$19.75—Many styles, many fabrics, and a real saving of \$5 on every one of them. Tailored from wool poplins, granite cloths, Bedford welts, etc., of almost every shade. Suits made for style, beauty and service. At only \$19.75

Other suits at \$15.00—\$22.50 up to \$39.50.

WOMEN'S SPLENDID COATS AT \$10.95—At this extremely low price we are selling women's coats cut in the most up-to-date styles from newest fabrics, including boucles, in rich browns, double breasted effects, with collar and cuffs trimmed with broadened velvets. These are good coats. Underpriced at \$10.95

Other children's coats at \$4.95, \$5.95—up to \$10.00.

These For Instance

WOMEN'S STYLISH COATS AT \$16.50—At this price you will find here the most fetching styles brought out by the master designers this season. Then the newest fabrics in almost every desirable color. We are sure you will admire every style we show you at the price

Other coats for women at \$12.50, \$15.00, \$19.75, \$25.00—up to \$50.

YOUNG WOMEN'S COATS AT \$8.95—Here's many beautiful winter coats, they are made from such popular fabrics as cut chinchillas and Astrachans—plenty of colors. New belted effects, collars and cuffs of self materials or velvets and unmatchable values.

CHILDREN'S NOBBY COATS AT \$3.95—While we present many various styles and fabrics for children, sizes 2 to 14 years, including cut chinchillas in pretty navies and grays, belted backs and cuffs of self materials of different shades. Choice at \$3.95

NEW TAILORED SKIRTS AT \$3.95—When you go to buy a skirt, you want the best style, and fabric your money will buy. Therefore we would like for you to pass judgment on these skirts in black and white honeycomb, checks, fine French serges in blacks and navies. There are various stunning styles to choose from. At \$3.95

NEW VELVET SKIRTS AT \$6.50—These new broadened velvet skirts are becoming quite popular. They are quite different from the general skirt styles. Come in and see them. The price is only \$6.50

Other styles and fabric in tailored skirts at \$2.95, \$7.50 and up to \$15.00

GREAT WAIST STYLES AT \$1—We can't refrain from telling you about our wonderful waist values at \$1.00. There are so many beautiful new styles and so many different fabrics used in this \$1.00 line of ours, we can't tell you about all the styles, but will say they are the newest and have long sleeves. Be well to take a look. Choice \$1

Other values in waists at \$2.95, \$3.95, \$5.00 and \$7.50.

THE STORE THAT SERVES YOU BEST

SCHOOLS ARE COMPLIMENTED BY INSPECTOR

Excellency of the Newark public schools, efficiency in their management and completeness of equipment were subjects of compliment, Friday, from a source which should make the commend most gratifying to members of the board of education and to department instructors. The speaker was no less a personage than W. S. Deffenbaugh, an inspector in the United States department of education.

Not only are the public schools of Newark up to the general standard of schools in cities of corresponding population in four states recently visited by the inspector, but in several respects they are happily distinctive. This was the substance of Inspector Deffenbaugh's comment after spending a day and a half viewing the public educational situation here.

He came to Newark in course of his travels in search of new ideas for federal educational bulletins, as well as to obtain data for purposes of the department in making recommendations to public schools of the country. It is a part of the great plan to advance the standard of public education in the United States to a point where it will ultimately lead the nations of the world in this respect.

Development of the industrial branches in the Newark schools was a matter which most favorably impressed the inspector. Said he:

"The Newark schools have been particularly fortunate in many respects. You have here exceptionally well equipped departments for manual and domestic training. After all, this is very important, for it is coming to be recognized that industrial training is more and more necessary every day, as our national industrial pursuits grow and broaden."

Since January 1 have visited public schools in cities of North Carolina, West Virginia, Pennsylvania and Massachusetts. Of course, it could hardly be expected at this time to find elsewhere the equipment for industrial training that is represented in New England. The New England schools were the pioneers in the adoption of industrial training.

"Considering the length of time and the expense necessary in equipping and maintaining industrial departments, I think the Newark schools have made very good progress, indeed."

Inspector Deffenbaugh was particularly well pleased with the large high school enrollment, especially in view of the population of Newark.

The matter of new buildings met with his appreciation. Said he, speaking on this subject:

"Your board of education has done well with the funds at hand in erecting its new buildings. I am particularly favorable to the style of structures adopted here—the 12-room buildings with plenty of light, scientific ventilation and heating—and I am glad to see the vacuum cleaning process in use. It is a wonderful advance over the old dusty, disease-spreading method."

The inspector pronounced Newark rarely fortunate in having such a good public spirit, and in this respect he made special reference to the public playgrounds. He declared the White Field and Heisey playground in line with the most advanced ideas of public health and education, and marvelled at the complete equipment of such athletic fields in a city of Newark's size. The Everett donation was likewise a subject of gratifying comment.

Such fields are most rare in cities of Newark's population," he said. During his stay, Inspector Deffenbaugh is giving attention to classroom methods, also, for the purpose of making a comparative observation of the various customs being followed in cities throughout the country.

He came to Newark from a visit of the Zanesville schools. On Saturday he will go to Mansfield, and from there to Lima, concluding his observations in Ohio.

Data compiled in course of the inspections will be turned over to the department, and Inspector Deffenbaugh will assist in working out the suggestions to be embodied in the periodical bulletins issued by the department to every public school superintendent in the land.

HOLLER

Mr. and Mrs. John Arrington, Sr., of near Morgan Center visited at the home of the daughter, Mrs. Chas. Edman, Tuesday.

Dr. Coleman spent a few days last week with relatives at Dayton.

Mrs. Ethel Corwin and little brother of Stark visited with her grandparents, Mr. and Mrs. John Edwards, for a few days last week.

"We Want You on Our Books"

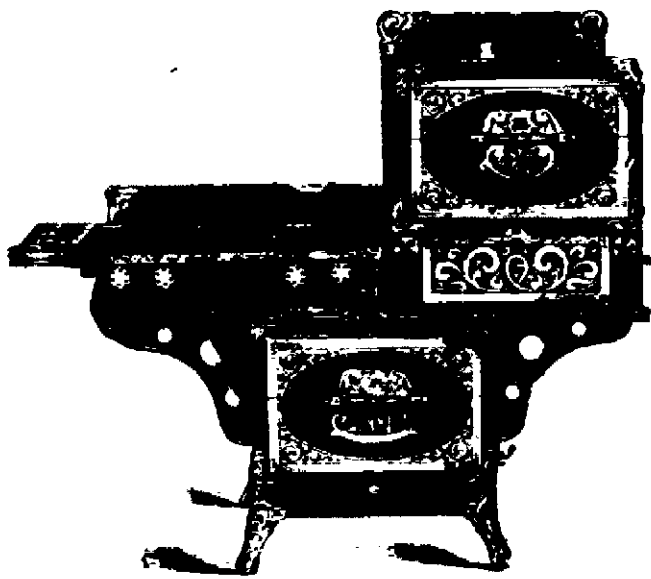

# BUSINESS BUILDING BOOSTER WEEK

A Greater Store — A Greater Business — A Greater Name — Greater Values — Greater Patronage.

## WE ARE CELEBRATING OUR SEVENTH BUSINESS BIRTHDAY

The three great features of our great business and making it greater every day are **BETTER FURNITURE, BETTER VALUES and BETTER TERMS.** In seven short years we have built one of the largest and best arranged furniture stores in Ohio. The reason for this is when people come to this store they find the merchandise they want, trustworthy in quality and character. They find prices that make purchasing here advantageous. They find courteous salesmen who know furniture. They find service efficiency and satisfaction. Therefore business increases. Below we picture a few "Business Building Boosters" that will make the next week the largest in the history of our big store. "Come in." You cannot afford to overlook these wonderful values, made possible by the Big Furniture Store in the Arcade. Your Credit is Good Here for Anything, Anytime and Always.

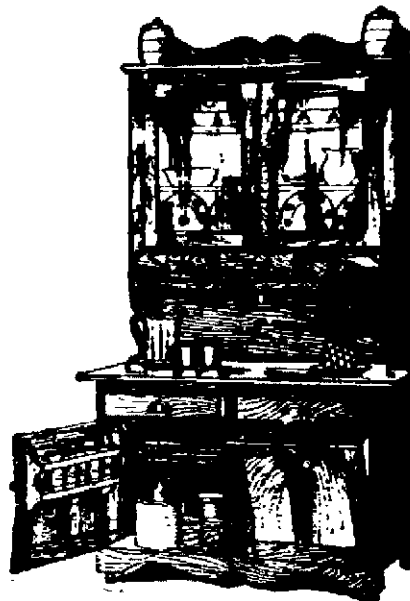

### BUSINESS BUILDING BOOSTER GAS RANGES

It will pay you to visit our stove department. Here you will find the largest line of quality ranges in the city and we guarantee them to give satisfaction. Special for this occasion we are offering a gas range with broiler at only

## Theatres

## Orpheum Theater

The management of the Orpheum theater is today showing the Newark theater-going public what real comedy is. Munro is a very pretty two reel comedy which should start to finish. The play in the Death Play, a feature shown in three reels is a very interesting and pretty drama. Harry Wheeler, in a novelty musical act is pleasing large audiences.

## "Uncle Tom's Cabin"

Kibble and Martin, as the greatest production of the Orpheum, will appear at the Orpheum tonight. Kibble and Martin have successfully solved the problem of combining the old and the new. "Uncle Tom's Cabin" is a spectacular play that gives nothing worth seeing of either the straight method of the old method. All the scenes are of the old and the new. The story has been of the old and the new. The production of a play of this class specialties, photographically, with the piece, scenes, and lower, forming an even more entertaining. It will be a success to see the company and two features. The piece, each scene, and the play are used to transport the audience to the past, and the play is a success.

## "Honey Boy Minstrels"

The "Honey Boy Minstrels" dancers, J. George, and the Minstrels, this evening, will be the second feature of the play. In a feature, which has been titled "Honey Boy Minstrels" and the play is a success.

# Trifles Makes Perfection Yet Perfection Is No Trifle

THAT clever remark by Michael Angelo's impressed CORNELL that it has watched the "TRIFLES." Result—PERFECTION—Perfection in EVERY DETAIL of clothes making and selling. PERFECTION IN STORE SERVICE. COME HERE AND LEARN HOW YOU MAY SAVE and receive ABSOLUTE SATISFACTION and the highest of STYLE EXPRESSION and FIT. Years of knowing how to make and buy suits.

## CORNELL IN THE FRONT RANK

of exponents of HAND TAILORED CLOTHES for men and young men. Individuality is the goal towards which those that design Cornell garments are ever striving. This season WE HAVE SUCCEEDED in producing Suits and Overcoats at same specialized prices—

The cleverest young men's and men's garments that we have ever shown. Coats are shorter and jaunty. Conform to the figure and fit the shoulders naturally. Lapels are higher and patch pockets are in vogue. Vests are cut high and made with notch collars.

at **\$ 10** and **\$ 15**

The best colors are blue, grey and brown, with a pronounced tendency for rough fabrics, notably black and blue grounds, with a showing of white.

We Cordially Invite You

to inspect our magnificent showing of Suits and Overcoats. The more critical you are, the more it will please us.

# CORNELL

THE MARK OF QUALITY.

29 SOUTH PARK

29 SOUTH PARK

scribes the new program to be presented by Lyman H. Howe at the Auditorium on Thursday, October 10. Similar praises are sounded by theatrical reviewers of newspapers in each city where Mr. Howe has exhibited his new program. The subjects provide thrills on land and sea, education in nature studies and travel, with comedy enough to heaven and brighten the most flinty or faded amusement patron. The consensus of opinion is that Mr. Howe's new productions are more stupendous in their range and more amazing and delightful than ever. They emphasize the fact that in this world of innumerable so-called "culture shows" Mr. Howe's unique Travel Festival is indeed a thing of self—entirely apart and unrelated by any other exhibition.

### LIVE YOUR LIFE AND LIVE IT WELL

Your Hopes and Aims Never Reach the Height of Desire When Physically Unprepared.

You've got one life to live and the time is short. You've got a brief time to do what you ought to do—what you want to do.

You can't be somebody or nobody and ought to be happy and healthful. You can't be a good man and not be a good man.

You can't be a good man and not be a good man. You can't be a good man and not be a good man. You can't be a good man and not be a good man.

You need this special tonic to steady your nerves—to get you back in the line and muscle strength again.

The great tonic for such condition is now to be had today.

Evans' Addition Pills is the tonic you need. Get it from Evans' Drug Store and the druggist is authorized to refund your money if results are not as expected.

Get a box at your first opportunity. Attention Pills! The same price everywhere.

Evans' Addition Pills, Evans' Drug Store, Newark, N. J.

### Jews Observe Yom Kippur the Day of Atonement

How's Pictures. These pictures are the best of the day. They are the best of the day. They are the best of the day. They are the best of the day.

## DRINK HABIT

### RELIABLE HOME TREATMENT

The ORRINE treatment for the Drink Habit can be used with absolute confidence. It destroys all desire for whiskey, beer or other alcoholic stimulants. Thousands have successfully used it and have been restored to lives of sobriety and usefulness. Can be given secretly. Costs only \$1.00 per box. Frank D. Hall, N. Side Square

set tomorrow night the Orthodox Jew must drop all mundane affairs and devote the period to fasting, penance, prayer and attendance at a synagogue. It is the custom of the more devout to spend the entire twenty-four hours in a synagogue. The Reformed Hebrew congregations do not require so much from their members.

In the Orthodox places of worship Yom Kippur begins this evening with the chanting of the ancient Kol Nidre, a petition for forgiveness for broken vows. A sermon usually follows, and the service concludes with prayer and hymns. Most of the worshippers then go to their homes, but some remain in silent supplication throughout the night.

Early tomorrow morning the devout will again assemble in the synagogue. Among the congregations that cling to the ancient customs, the men and women are segregated, and the women are dressed in white, while the masculine worshippers wear shrouds. Prayer and singing alternate for several hours, after which comes the reading of the scrolls. At the end of the day the impressive rite of the Niella, symbolic of the sealing of the Book of Life, the closing of Jehovah's ledger, brings the impressive Yom Kippur service to a close. After a final prayer, and the Teheho Gdanlo, or blast of the horn, the congregation files out and is at liberty to break its fast.

Yom Kippur, or Yom Ha-Kippurim, was instituted by Moses as a day of penitence, when Jews may atone for the sins of the whole people. In the Talmud it is called the Day of Great Fasting. The Biblical authority for Yom Kippur is contained in the verses in Leviticus.

"Upon the tenth day of this seventh month shall be the Day of Atonement. It shall be the most solemn and shall be called holy; and you shall afflict your souls on that day, and shall offer a holocaust to the Lord. You shall do no servile work in the time of this day."

It is further provided that the fast shall extend "from evening until evening," and that the sacrifices to be provided shall be two buck goats for the atonement of sin and a ram for the holocaust to the Lord.

### TEN YEARS OF PAIN RELIEF IN TWO DAYS

RHEUMA Worked Wonderfully Fast in This Obstinate Case of Rheumatism.

Ten years of hard study, constant exercise, and the most exhaustive cases of different forms of Rheumatism. Sufferer, Benjamin M. Crocker, 614 Sumner street, Supt. Palmetto Fertilizer Co.

For many years I have been a sufferer from Rheumatism, for about ten years, having many pains, aches and joints. Was on crutches about one-third of the time. The first of last December commenced to take RHEUMA in two days I laid down my crutches and have since given them away. I now feel like a new man. I have taken some ENGLISH MARINE in connection with RHEUMA. I have never spent but \$2 for RHEUMA. Yours unsolicited, J. R. Crocker, 614 Sumner street, Supt. Palmetto Fertilizer Co.

Go to Evans' Drug Store and get a bottle for 50 cents. He will return your money if you are not satisfied.

### The Human Procession

One of the most remarkable figures in the Roman Catholic church is Cardinal Raphael Merry del Val, the Papal Secretary of State. Great as is his position and power at the Vatican, he is still a comparatively young man, for he was born on October 10, 1865, and will celebrate his forty-eighth birthday today. He is a Spaniard, of Irish descent, and was born in London, where his father was secretary to the Spanish embassy. The Pontifical secretary was educated at Slough, Ushaw College in Durham, and in Rome, and in his student days was known as "the Merry Devil." He is descended from an Irish family that settled in Spain about three centuries ago.

The eminent churchman was only twenty-two when he was appointed a Papal envoy to Queen Victoria's jubilee, and a little later he represented the Pope at the funeral of Emperor William I. He was also the Vatican's representative at the coronation of King Edward. He was made archbishop of Nicotia in 1906, and he was only thirty-eight when he received the red hat of the Sacred College. Meritization that elected Pius X. to the Papal throne, and Pius then made him Pontifical Secretary of State, the most important office within the gift of the Pope.

Merry del Val was given a number of important diplomatic missions early in his career. One of these was the settlement of the Manitoba school controversy, long a religious and political issue in Canada.

The Cardinal speaks English, Spanish, French, German, Italian and Latin. He is fond of golf and other outdoor sports, and strange to say, is a baseball fan. He knows the names and records of all the leading big league players, and follows the pennant races with great interest. He became interested in baseball through Bishop Zenner of the American College, Bese.

Cardinal Merry del Val was responsible for the introduction of electric lights, telephones, elevators, typewriters, and other modern improvements into the Vatican. His iron-clad discipline has been widely criticized, and he has been accused of many murders, but he still holds the entire confidence of the Pope and other church leaders.

Sir Rufus Isaacs, Attorney-General of Great Britain and leader of the English, will pass his fifty-third birthday today. He was the son of a Jewish merchant in London, and in his early days he was to go to sea, going to Cambridge, working as a common sailor. Returning to London, he found a broker, adopted the legal profession, and succeeded in building up the largest practice of any lawyer in England. It is expected that he will become Lord Chief Justice upon the retirement of Lord Alverstone.

John Armstrong Chaloner, who has the novel distinction of being legally insane in New York and legally sane in Virginia, was born in New York forty-one years ago today. His name was originally Chanler, but he changed it to Chaloner after escaping from Bloomingdale Asylum, where he alleged, he was sent through the machinations of enemies. Although he inherited millions, and is related to most of the "first families" of New York, he became a lawyer. He married

Amelie Rives, the novelist, who divorced him and later married Prince Troubetzk, a Russian. He has written a volume of verse, but his literary fame rests principally upon the authorship of the famous question, "Who's looney now?"

### Today in Pugilistic Annals

1759—Bill Stevens defeated Jake Taplin in England in a bout to decide which was to meet Jack Slack, the champion. Stevens, called "the Nailer," fought Slack the following June, and won the title. "The Nailer" has the unenviable distinction of having been the first faker in ring history. Soon after winning the title Stevens was paid a large sum by several gamblers to quit in a fight with George Meggs. The fraud was discovered and neither man could get any more fights. Bill Darts, the next champion, followed the Nailer's example, and faked a bout with Peter Corcoran, the Irish champion, who then claimed the title, but was whipped by Harry Sellers.

1910—Bat Nelson defeated Monte Dale in 3 rounds at Kansas City.

### SAGE TEA KEEPS YOUR HAIR DARK

It's Granmother's recipe to bring back color, thickness and lustre. Everybody is using it again.

Gray hair, however handsome, denotes advanced age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Agents Hall's drug store.

# **Christian Science Lecture** **By Dr. Francis J. Fluno** **High School Last Night**

The address given at the High School Auditorium Thursday night by Dr. F. J. Fluno of California, was given close attention by a large and cultured audience. It has long been customary for Newark's First Church of Christ Scientist to have an annual free lecture given to the public and that of Thursday night was one of the best that has been presented under the auspices of the local church. The entire address is here given in introducing Dr. Fluno Mr. Ernest M. Baughner said:

"Friends:—First Church of Christ Scientist of Newark has invited you to listen this evening to an address on Christian Science.

"This invitation was prompted by gratitude for the good that has come to not only the individual members of this church but to the world, through the teaching and practice of Christian Science, and a desire that this good may be shared by all.

"Aside from the regular church services held on Sunday morning and on Wednesday evening, these lectures by a member of the Board of Lectureship of The Mother Church, The First Church of Christ Scientist in Boston, Mass., are an authorized means of disseminating an accurate knowledge of Christian Science and of the life and works of its discoverer and founder, Mrs. Eddy.

"I have great pleasure in presenting Dr. Francis J. Fluno, C. S. D., of Oakland, Calif., who will address you."

Dr. Fluno said:

"Christian Science is the law of Truth. Science and Health p. 482) known, understood and found demonstrable. It is the Science of being: the Science of Life.

"It is the knowledge of Truth and true being, reduced to a system.

"Its name defines it, for it is perfectly Christian; because it countenances no wrong, either in theory or practice.

"It is Scientific, for it admits of no error, either in premise or conclusion. Its name is just what it should be: is as definite and significant as it can be.

"Christian Scientists are individuals, who have found this Truth and found it to be true. Found Christian Science and found it to be scientific; are succeeding in a measure to demonstrate it upon themselves and others who come to them for help.

"Step by step they are learning their way out of bondage into liberty, out of faults and failures into correctness and right.

"Finding their way more and more out into the grand possibilities that await them in the great Science of Truth and true being of which they are earnest advocates and exponents.

"Christian Science is the law of Life, Truth and Love, understood and demonstrated, that has come to the world; and has come by revelation to one who through many years was being fitted to receive it and give it to a waiting people.

"Christian Science is being recognized and acknowledged as Science; and hence is being received and taught Scientifically and understandingly.

"Because it is Science, it is demonstrable and is being demonstrated in every nation of the civilized world, and because it is Science, and can be, and is, being demonstrated, therefore the world must and will receive it, and nothing can stand before it.

"It is the eternal truth, whose convincing and converting powers nothing can daunt, and whose onward march no foe can cope with.

"Those who have espoused this cause are working earnestly and courageously, demonstrating for themselves and for the world this gospel, of "On earth peace, good will toward men," and though they find at times the burdens large and heavy, yet added strength is given with each added load to bear. They feel that much has been done for them, and of them much will be required.

"For Christian Scientists are individuals who, like all the world (whether they know it or not) were sinning against themselves and their own best interests, and suffering because of their sinning, and who came to the healing waters of the Christ cure and were cleansed of their sins; and when they were washed they were healed of their malady.—cleansed of their sins and their consequent suffering; and now humbly and meekly, yet boldly and mightily, they are following the Christ, through evil as well as good report.

"Christian Science cannot fail any more than the science of numbers can fail. Mathematics never deceives: the science of numbers will never fail in any problem and figures will not falsify concerning it. Likewise Christian Science is absolutely scientific, and the Science of being cannot fail.

"The eternal laws of Life, Truth and Love, having their foundation in the one God, can no more fail than their foundation Principle, the eternal God, can fail.

"Statements Logical and Scientific.

"Christian Science makes its statements logically true and scientifically correct. The Science of being is as independent as the science of mathematics. Like the spirit of

Love, it seeks no reward and fears no punishment.

"Since it is the eternal fact of being, it can stand alone, being true, and its Principle Truth, it asks no support from any one or any thing. It is the same whether thousands rally to its standard or seek to trail its banner in the dust. It is a living reality, and its Principle everlasting Life, and therefore it cannot die; it will live through all the ages yet to come, as it has lived through all the ages that have already come.

"Christian Science is the eternal law of being, and does not teach eternal baseness from God, or good; but on the contrary it teaches that must come to Truth at last. God is the all-powerful one. How then could there be any other power? How could man, having no power apart from God, sin against God and be forever lost?

"All we have and are is from God, the divine source of being, and it is a self-evident fact that whatever of good there is for us in the great unchangeable is waiting for us now, hence the farther we go astray, and the longer we stay away, the greater will be our sufferings and the longer we will have them to bear.

"God is omnipotent, and being the same yesterday and today and forever, His omnipotence forever has been, and forever will remain. Hence no other power can be, no other power can ever be able to stay His mighty hand, or thwart Him in His purpose.

"Therefore God and heaven are, and their opposites, the devil and hell, are not; and Divine Science is the angel that comes today to lay hold on "that old serpent, which is the Devil, and Satan," and will chain him "and cast him into the bottomless pit" (the great nowhere) and all his angels with him. But neither Satan nor his angels is personal devils. Satan is the lying spirit, or spirit that lies; which is the testimony of the physical senses, which never tells the truth; and the angels of Satan are personified evils resulting from the testimony of these false senses, such as jealousy, hatred, revenge, hypocrisy, sickness, sin and death.

"Christian Scientists, being students of this Divine Science and finding how scientifically true it is, naturally and necessarily (in a measure at least), grow to become one with it; to reflect it, to represent it, and express it, in thought, in word, and in deed. And while this with them is a growth and is attained to by degrees, yet patiently and by degrees it is attained. And like the shepherds of old, having seen this light, they are following where it leads, and would point others to that light, that they may follow also.

"Christian Science being independently right, it can stand alone; and Christian Scientists are growing into independence; not what the world calls independence, however, for the Christian Scientists' independence is absolute dependence upon God. They are learning to make practical the first commandment, "Thou shalt have no other gods before me."

"They are learning more and more to depend upon God—the one, the only giver—in sickness, and in health, in pain or in pleasure; in times of plenty or in times of want; learning at all times and under all circumstances to follow the Christ through evil report as well as good report.

"Christian Scientists, living more and more out in that Principle of inexhaustible plenty and fullness, learn a certain degree of independence of material ways and means, and a more perfect dependence upon the One Great Cause, whose higher laws of Spirit and Spirituality annul the supposed laws of matter and materiality, and consequently govern all things in the spiritual, as well as in the so-called material world.

"In Law of Life.

"Christian Science is the Scientific knowledge, or the law of Life, reduced to a system and found practical, not only in the physical healing of sickness and sin and all evil, but in the destruction of them, from off the face of the earth, that His kingdom may come, and His will be done, in earth as it is in heaven.

"Christian Scientists are those who, to the extent that they understand this great Truth, are practicing it upon themselves and others, who ask of them the same God's blessing.

"Hundreds are being healed every day, of sickness as well as of sin, and of sin as well as of sickness; and these in their turn are learning the great fact of being, and how to apply it in their own case, and upon those who, in their turn, shall come to them.

"The Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy, are the textbooks of Christian Science.

"This latter named book, "Science and Health with Key to the Scriptures," sheds a new and spiritual light on the Scriptures, illumines being, and sets thought at work in right directions.

"And life is found not to be a burden, beset with sickness, enshrouded in darkness and engulfed by fear, but is found to be worth the living; for health is found in place of sickness, light instead of darkness, and love in place of fear.

"The sinner finds the way of redemption, and he himself, sitting at the feet of Christ, Truth, clothed and in his right mind."

"Less than forty years ago this book, "Science and Health with Key to the Scriptures," was first published and given to the world.

"When it first appeared critics said it would never be read. Today this book is being read more and more throughout the world, and wherever it is read the sick are healed, sinners forsake their sins, and the unrighteous man his thoughts.

"So that the audience of this book (Continued on page 8, col. 1)

**Character and Dress**

ARE recognized by nothing so impressively as by distinctive and refined apparel. (Continued from page 7.)  
 is being felt, and its beneficial effects experienced, not only by the students of this book, but by all who come within the range of their thought.

"Science and Health with Key to the Scriptures" casts more light on the inspired Word, and is a more highly scientific work than any book that ever was written. No other book has ever stated Truth so clearly, and so unwaveringly and scientifically as to rebuke sin and sickness in all their forms and make them disappear.

**Book Teaches Pure Science.**  
 This book teaches pure Science; it does not teach a mere belief. When Mrs. Eddy discovered Christian Science she gave up her former opinions and ideas concerning God and man, and wrote nothing but the unfoldings of Science, from the basis of the one divine Principle—God.

Christian Science is not another religious belief; it is Science, and Science is something to be understood and demonstrated, not merely believed.

Christian Scientists cannot properly be termed simply believers in Christian Science any more than a mathematician could be called a mere believer in mathematics. They are students of Christian Science; they are studying to understand Christian Science, but not trying to believe it.

They soon see that their beliefs do not change anything, that what is true is true whether they believe it or not; but if they would get the benefit of it they must understand it—the same in the Science of being as in the science of numbers.

No teacher in mathematics, after demonstrating a proposition for a pupil, ever asks that pupil whether he believes it; he asks him if he understands it, knowing that his belief or disbelief will not change the fact; and what is true in the science of numbers in this respect is emphatically true in the Science of being.

Christian Science is not made up of mere personal opinions. It is the Science of being; and like the science of numbers it never asks what we think about it, or how we feel about it, or whether we like it or not.

It never changes to suit our likes or dislikes; it never varies one iota to gratify any one's particular wishes or desires; no difference what your rank, how exalted or how abased, how rich or how poor, or what your seeming needs may be, or however much you beg for assistance.

But, from its unchangeable laws of correctness and right, it stands as unmoved and relentless as the science of numbers, and from its great heart of Love is saying, "You must come to me, I cannot come to you. You must concede to my requirements, I cannot concede to yours." "I have eternal Life to give, but you must needs surrender all false belief to get it."

It grants your right desires, and every human need, but they must be given in God's way, and can only be your way when you have conformed to His.

Christian Science is based on the one universal good; hence is good alike to all, and changes not for any.

Therefore it should never be read with the question before us, whether we are going to like it; but, is it true? is the question to be considered.

It should never be studied with the idea of liking, or disliking it, as though our likes or dislikes, our acceptance or rejection would in any way affect the great fact of being.

What matters it whether we believe that one half time one half is one fourth? If we reject it, does that prove it false? Or if we accept it, does that make it true?

Does our acceptance or rejection alter the fact that can be scientifically proven and practically demonstrated?

Likewise, in divine Science, what matters it whether we believe that man, in his true spiritual being, by his relation and sonship to God—the Father—has for his inheritance, perfect, unchanging health, sinlessness, and everlasting life. Does our acceptance or rejection alter the fact, that can be and is found logically true, and by practice is being demonstrated?

This fact is being proven and demonstrated.

## "GETS-IT," for Corns Surely Gets Them!

It's the Corn Cure on a New Plan—Gets Every Corn Quick and Sure.

"If you're like me, and have tried nearly everything to get rid of corns and have still got them, just try the new, sure, quick, easy, painless way—"

"Talk About Your Corn-Getters, 'GETS-IT' is the Real Thing!"

The new-plan corn cure, GETS-IT. Watch it get rid of that corn, wart, callus or bunion in a hurry. "GETS-IT" is as sure as time. It takes two seconds to apply—that's all. No bandages to stick and fuss over, no salves to make corns sore and turn true flesh raw and red, no plasters, no more knives and razors that may cause blood poisoning and more digging at corns. Just the easiest thing in the world to use. Your corn days are over. "GETS-IT" is guaranteed. It is safe, never hurts healthy flesh.  
 Your druggist sells "GETS-IT," 25 cents per bottle, or direct if you wish, from B. Lawrence & Co., Chicago.

Until a short time ago, scarcely one person in a thousand had ever tasted a really good soda cracker—as it came fresh and crisp from the oven.

Now everybody can know and enjoy the crisp goodness of fresh baked soda crackers without going to the baker's oven.

Unedea Biscuit bring the bakery to you.

A food to live on. Stamina for workers. Strength for the delicate. Give them to the little folks. Five cents.

NATIONAL BISCUIT COMPANY

monstrated every day and every hour, and mankind is being healed, not only of his physical ills and personal sins, but is being corrected of such things as sickness and sin.

Not only mankind, but the whole material universe is being benefited through the teachings and demonstrations of Christian Science, and this brings His kingdom on earth and His will, as it is in heaven.

The wolf and the leopard shall lie down with the kid; and the calf and the young lion and the fattening together; and a little child shall lead them."

"They shall not hurt nor destroy in all my holy mountain; for the earth shall be full of the knowledge of the Lord, as the waters cover the sea."

Christian Science is the Science of Life; it includes and comprehends the vast infinity of being and rejects all that is unlike the one perfect being that is God—the absolute and only good.

It is not something that Mrs. Eddy has created or invented. It is what she has discovered and given to the world, and for it we owe her more than we shall ever be able to repay.

Right here let me say, we are not trying to repay her by personal worship or foolish adoration; we are trying in a more practical way, by seeking to understand the Science she has discovered and imparted to the world, to live it daily and hourly, and never to soil it by our own opinions and beliefs.

Christian Scientists never talk their opinion; it does not become a Scientist to be telling what he believes regarding Science, for Christian Science is not made up of beliefs, opinions, and dogmas. It is Science, that is all and that is enough.

It is the eternal fact of being, and can no more change as the years go by than the great unchangeable, the eternal God can change.

**Christian Science Not Mesmerism.**  
 Christian Science is not mesmerism. Mesmerism is the belief of minds many; that each individual has a mind of his own, and that the stronger mind can influence and take unlawful control of the weaker mind; which judging from appearances would be the natural inference. If the senses could be trusted, and appearances were reliable, this would be the only conclusion that could be arrived at.

But we "Thank God through Jesus Christ our Lord" that in the light of Christian Science, the revelation, that mortal sense is found to be a non-reality, that the sense testimony is unreliable. That the Bible, and Science and Health, corroborating the Scriptures, also the grand and unsurpassed demonstrations of Jesus and the apostles, and the corroborative testimonies of healing through Christian Science.

All teach and prove the power of Truth over error; the power of God—good—to destroy evil.

All teach and demonstrate that the one Mind has power over the carnal mind; that the mortal mind or sense testimony is false, and the Christ Mind is true.

Science and Health and the Bible, when rightly understood, disclose the fact that God is the only Mind; and that the so-called mortal mind is but the carnal mind, that must be corrected by the divine Mind.

So that Christian Science, so far from being mesmerism, is just the opposite.

**It Exposes and Destroys Mesmerism.**  
 Really it exposes and destroys mesmerism.

For instead of teaching minds many, it teaches one Mind, and that the Mind of God whom no evil is; no sickness, sin, or death; which Mind must exercise and annihilate the mortal mind, or negative mind, as darkness is annihilated by light.

And Christian Scientists, instead of being mesmerists, are finding their way out of mesmerism out of the belief of minds many, into the one Mind, the Mind that is God, where all so-called material minds are swallowed up and lost in the one divine Mind, wherein dwell all righteousness.

**Sickness and Disease Not Real.**  
 Christian Science teaches there is, in reality, no such thing as sickness or disease. That sickness and disease are illusions; not that they are hypochondria or imagination in the common acceptance of those terms, but that out in the great scientific fact of being no such thing is, or can be found; that sickness or disease cannot properly be said to be a

part of being; that being, in its scientific purity, is as free from sickness and disease now as it was possible for it to be before the so-called finite world began, or as it ever will be, when all seeming evil is swept away and His kingdom is come on earth.

Through the teaching and understanding that the ills of the flesh are not the realities of being, the world is not only being healed of its present load of misery and wretchedness but steadily and quietly the work of reformation and regeneration is taking place, not only in those who have espoused this glorious cause, but in the minds of all men everywhere who hear of its wonderful teaching.

**Demands Right Motives and Right Actions.**  
 The teachings of Christian Science are of the purest and the best. It demands right motives and aims as well as right actions, and that right doing can only come by honest and pure desires.

From the mortal standpoint, evil thinking is the harbinger of evil doing. Evil thinking not only provokes wickedness, cruelty, and crime, but it also breeds sickness, disease, and death.

Christian Science Mind-healing not only heals the physical body so called, but it heals the so-called physical mind and physical body are one. Therefore to the extent that the physical or false mind is corrected by the divine Mind, the so-called physical body is changed, as thoughts of sickness are exchanged for thoughts of health, the physical body responds, for the body is but the expression of the controlling thought.

Christian Science Mind-healing, therefore is elevating, edifying, and refining, and all those who come to it for help are not only benefited physically, but mentally, morally, and spiritually.

It teaches perfect health and righteousness, as the real, and sickness and evil as the unreal. Consequently its teachings establish health instead of sickness; right instead of wrong.

To Scientific understanding it opens wide the door on immortal glory, and reveals spiritual man in the full possession of his God given inheritance—health, happiness, and eternal life. And thus consigns sickness, evil, and death to everlasting oblivion.

It is not therefore the mere superficial idea of not speaking evil or not talking sickness, but that sickness and evil are not a part of being; they therefore are not only unprofitable topics of conversation, but they are not true, and if spoken of at all they must be exposed as errors and not the facts of being.

Christian Scientists, therefore, talk very little about sickness and evil. Their conversation naturally turns to that which interests them most. They are searching for and finding health, and not sickness. They are seeking for and finding the right, rather the wrong, and having found it, they find it more lovely than words can tell.

Consequently, when they are by themselves at least, they love to talk it, because it is nearest their heart and the one thing they love. "They love to tell the story because they know 'tis true. It satisfies their longing as nothing else can do."

Christian Science teaches there is no reality in sin; that God made all that was made, and all He made was good; that God did not make sin. In the Bible we read that God is of "purer eyes than to behold evil, and cannot not look on iniquity."

The Master said: "None is good, save one, that is, God." And Science and Health in its teachings corroborates these statements and reveals God, as the one only good, and that He is only good; i. e., He is not good and evil, too. He is the one absolute good in whom no evil is.

Since no evil is in Him, therefore no evil could emanate from Him. Hence He made no evil; and since He made no evil, and He made all that was made, therefore evil never was made.

Therefore sin, sickness, pain, and death, evil, error, and discord of all kinds do not belong to God, nor to His creation; and are no more a part of the great fact of being than the errors and misunderstandings of mathematics are a part of the science of numbers, or discord a part of music.

Man in his true spiritual sense is found to be as sinless and perfect now, and as unchangeable in his sinlessness, as the everlasting Father, the perfect, sinless, and un-

changeable God Himself. "Be ye therefore perfect, even as your Father which is in heaven is perfect."  
 Christian Scientists are finding their way into the realms of perfect and harmonious being, where absolute right reigns, and wrong can never enter.

This is the kingdom of God, where divine Science alone rules and nothing else has place or power, and this is just as present and just as possible and just as accessible today as it ever will be.

They are therefore, outgrowing sin, because the more they look into it, from the standpoint of absolute right, the more its nothingness appears; hence its emptiness. Therefore they do not make much of sin.

They are growing, neither to sin nor to suffer for sin; neither to love it, nor commit it; and that, because its reality is gone. Whereas once it was real, now it is unreal. So that Christian Science, in teaching the nothingness of sin, not only takes away sin, but the temptation to sin, for when sin is nothing then there is no incentive to sin.

When evil is nothing, then good is All-in-all.

But does the nothingness of sin or evil give the sinner license to sin? By no manner of means, for the law still remains. Christian Science comes as the Christ came of old; not to destroy the law, or the prophets; it comes not to destroy, but to fulfill, and not one jot or one tittle shall pass from the law till all be fulfilled.

He who sins shall suffer for his sins, and shall pay the uttermost farthing, and he who sins, he alone shall bear it.

If you sow to the wind, you shall reap the whirlwind, and if you sow to the flesh, you shall of the flesh reap corruption."

**Teaches That All is Good.**  
 Christian Science teaches that all is good; not, however, that sin and evil are good, but that all that is, is good; and that which is not good, is not at all.

That sickness, sin, and death, matter and mortality are not of God, the only good, and therefore are not good, and hence are not at all.

Christian Science teaches what the Master taught, that "there is none good but one, that is, God." He, therefore, is the only good, the spirit of good, the Principle of good, good in quality and in substance.

His creation, like Himself, must have the qualities of good; i. e., good could not produce evil. "Like begets like."

The effect must always be like the cause.

God saw every thing that he had made and behold it was very good. He made all that was made, but He did not make that which was not made.

**Sky is Instance of Illusion.**  
 That sky out there, for instance, that seems so real, seems like a canopy spread over earth, is but the illusion of the limited senses. We are looking out into what to finite sense is unlimited space, and we see as far as we can, and we call the limit the sky.

According to physics light travels at the amazing rapidity of more than eleven millions of miles in a minute of time, and yet there are stars so distant that their light is hundreds of thousands of years in reaching our planet.

Then talk about seeing the sky! God's creation is spiritual and good; always has been, always will be, and never can be anything else. In His creation there is no sickness, sin, or death, matter or mortality, or anything contrary to God the only good.

The so-called material world, wherein dwelleth sickness, sin, and death, matter and mortality, is not of God, and is not good, and hence is not, at all.

"While we look not at the things which are seen, but at the things which are not seen; for the things which are seen are temporal; but the things which are not seen are eternal."

**All is Mind, There is No Matter.**  
 Allow me to read the "scientific statement of being" from our text-book, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, page 468.

"There is no life, truth, intelligence, nor substance in matter. All is infinite Mind and its infinite manifestation, for God is All-in-all. Spirit is immortal truth; matter is mortal error. Spirit is the real and eternal; matter is the unreal and temporal. Spirit is God, and man is His image and likeness. Therefore man is not material; he is spiritual."

This is one of the grandest revelations of Truth and Love that was ever made to human sense, for it virtually, finally, and conclusively reveals man and the universe as perfect, spiritual reflections of the one and only God.

Who, but he we call "the Master" and she we call "our Leader" would have loved enough, and hence, the moral courage, to state that Truth

(Continued on page 9, col. 1.)

**Don't Let a Cold Settle on Your Lungs**  
 Many cases of Lung Trouble can be traced directly to a severe cold which has been neglected, and which, as a result, has affected the lungs. If you have a persistent cough of colds, sore throat, or any other lung trouble, before it becomes settled in such cases and has become the means of complicating and restoring to healthy persons, and serious lung trouble. Read of this case, and you will be convinced.

"I am a physician. During the winter of 1911 I contracted a severe cold, which, after a few days, settled on my lungs. I tried nearly every remedy, but without result. I was finally recommended to use Dr. E. C. Atkins' Pine Tree Cough Syrup, and I commenced using it as a last resort. The first bottle seemed to do me good, and I continued to use it for a few more, but I kept on using the medicine and found out on the third bottle that I had started on the right track. I continued to use the medicine and found out on the fourth bottle that I had started on the right track. I continued to use the medicine and found out on the fifth bottle that I had started on the right track. I continued to use the medicine and found out on the sixth bottle that I had started on the right track. I continued to use the medicine and found out on the seventh bottle that I had started on the right track. I continued to use the medicine and found out on the eighth bottle that I had started on the right track. I continued to use the medicine and found out on the ninth bottle that I had started on the right track. I continued to use the medicine and found out on the tenth bottle that I had started on the right track. I continued to use the medicine and found out on the eleventh bottle that I had started on the right track. I continued to use the medicine and found out on the twelfth bottle that I had started on the right track. I continued to use the medicine and found out on the thirteenth bottle that I had started on the right track. I continued to use the medicine and found out on the fourteenth bottle that I had started on the right track. I continued to use the medicine and found out on the fifteenth bottle that I had started on the right track. I continued to use the medicine and found out on the sixteenth bottle that I had started on the right track. I continued to use the medicine and found out on the seventeenth bottle that I had started on the right track. I continued to use the medicine and found out on the eighteenth bottle that I had started on the right track. I continued to use the medicine and found out on the nineteenth bottle that I had started on the right track. I continued to use the medicine and found out on the twentieth bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-first bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-second bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-third bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the twenty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the thirtieth bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-first bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-second bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-third bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the thirty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the fortieth bottle that I had started on the right track. I continued to use the medicine and found out on the forty-first bottle that I had started on the right track. I continued to use the medicine and found out on the forty-second bottle that I had started on the right track. I continued to use the medicine and found out on the forty-third bottle that I had started on the right track. I continued to use the medicine and found out on the forty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the forty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the forty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the forty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the forty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the forty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the fiftieth bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-first bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-second bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-third bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the fifty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the sixtieth bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-first bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-second bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-third bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the sixty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the seventieth bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-first bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-second bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-third bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the seventy-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the eightieth bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-first bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-second bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-third bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the eighty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the ninetieth bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-first bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-second bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-third bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the ninety-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundredth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and first bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and second bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and third bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fourth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and sixth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and seventh bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and eighth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and ninth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and tenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and eleventh bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twelfth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirteenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fourteenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifteenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and sixteenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and seventeenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and eighteenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and nineteenth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twentieth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-first bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-second bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-third bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and twenty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirtieth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-first bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-second bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-third bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and thirty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fortieth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-first bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-second bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-third bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and forty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fiftieth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-first bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-second bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-third bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-fourth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-fifth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-sixth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-seventh bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-eighth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and fifty-ninth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and sixtieth bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and sixty-first bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and sixty-second bottle that I had started on the right track. I continued to use the medicine and found out on the one hundred and ninety-ninth bottle that I had

CHRISTIAN SCIENCE

(Continued from page 8)

to a frowning world, that would liberate the world from its seething self, and make it free indeed.

There is more true love and unselfish devotion to the cause of humanity made manifest in this woman of the twentieth century, Mary Baker Eddy, than has been displayed since the time of him who stood up in the face of mortal man and said, "Ye are of your father the devil, and the lusts of your father ye will do. He was a murderer from the beginning, and abode not in the truth, because there is no truth in him. When he speaketh a lie, he speaketh of his own; for he is a liar, and the father of it."

Rotherham in his version of the New Testament renders the last clause of this text "for a lie he is, and the father of it."

Christian Science is the same straight and narrow way today as when the Master taught it, nineteen hundred years ago, on the shores of Galilee. It is as radical as the science of numbers, and one can no more deviate from its principles and rules, and still call that deviation Christian Science, than he could deviate from the principles and rules of mathematics, and still call the process mathematical.

It stands preeminently alone; there is no other religion, theory, creed, or doctrine that is anything like it, and there never will be; for it is absolute and final.

It is based upon the principle of unchanging Truth, undying Life, and unselfish Love, which triune Principle is God, that is, "the same yesterday, and today, and forever."

Christian Science teaches, "All is Mind, there is no matter."

The Scriptures declare, "Heaven and earth shall pass away, but my words shall not pass away." What does this teach, but that all matter and materiality shall pass away, but the divine Mind and His idea shall remain forever?

Furthermore, what else does it teach, but that all that God has not made shall be swept away as nothingness; for nothing that He has made can ever be destroyed; for all He made was good?

Christian Science does not teach that matter is a reality that will some day be destroyed, for if matter were one of the factors of being it could never be cast out, but would remain fixed forever.

It is not that the material universe was created to continue for a time until it had served its purpose, then to be burned up and destroyed; but that it has no existence save in the mistaken belief of mortals, and is eliminated by the knowledge of Truth in Christian Science.

Some day matter does not exist, and then they will know it never did exist, and that day is now.

The students of this Truth are finding more and more that matter, so called has no power to heal disease; that matter is inert; that drugs have no intelligence to direct themselves; that material medicine, so called, cannot diagnose a case and therefore cannot heal it. They are finding that nothing but Truth, divine Mind, can overcome evil, or error of any kind.

Jesus of Nazareth did not use material means in healing disease; it was the power of the spirit, with which he destroyed sickness as well as sin; although it is stated, and some are using it as an argument against Christian Scientists, that he put clay on the blind man's eyes, when he healed him.

One of the beautiful and wonderful lessons of this demonstration teaches is that all men (mortals) are born blind and cannot see until the clay of material sense is washed away by the cleansing waters of the Spirit of Christ, and then they will see, and see clearly.

Christian Scientists are finding more and more that food does not really sustain life, that while they are eating so-called material food it has no real life-sustaining properties or qualities.

Christian Scientists will never stop eating and drinking until they have demonstrated over it; and that will not be until they have demonstrated over the flesh, and all mortality. But how long will it take, or when that will be accomplished, "No man knoweth."

It would be the height of folly for any one to stop eating, until by actual knowledge and practical demonstration they had proven that they could live without eating.

Christian Science, like the Scriptures, teaches, "Wisdom is the principal thing." And it certainly would not be wise to cast ourselves down from the pinnacle of the temple, or down any other uncalled for, or unnecessary thing.

Christian Science sounds the toll, "There is no death." And St. Paul writes in his first letter to the Corinthians, "The last enemy that shall be destroyed is death."

The Revelator saw death and hell cast into the lake of fire, and in his most wondrous vision, he saw the "tabernacle of God" among men. And God should wipe away all tears from their eyes, and there should be no more death. And what ever is to be, with God, is done.

Since, therefore, there is to be a time when death shall not be—in fact, there is no death today. What will ever be true with God is a present accomplished fact; but this must be understood and demonstrated before it becomes a fact to man. What will ever be found not true is not true today. When we found there

NEWARK BARGAIN SHOE STORE'S VALUES

NOT TO BE MATCHED IN ALL NEWARK

You cannot anticipate too much in the way of special values when you attend our unbeatable Saturday Specials. All THRIFTY and Economical Women and Men come here to be satisfied and to save money.

THE NEWARK BARGAIN SHOE STORE

We Guarantee Quality, Fit and Style.

27 South Park Place, Newark, Ohio.

We are buying for three biggest stores in Ohio

were no fairies, we found there never had been any.  
When we found the sun did not rise, we found it never had risen. When we found the earth turned upon its axis, he found it always had turned upon its axis.  
Since there is to be a time when there will be no death, then there is no death today; and, since in God's presence there is no death, then there is no death anywhere; because He is everywhere, and there is no place where He is not.  
Death, therefore, is another error that Christ, the truth, casts out. For as in Adam—error—all die, even so in Christ, Truth—shall all be made—found alive. (1 Cor. 15:22.)  
Why Lazarus Was Raised.  
Jesus of Nazareth did not raise Lazarus from the dead, simply to restore him to family and friends, and a temporal life, again to suffer and die, and be mourned and lamented; but to show the power of Truth to overcome error; to show that Life was the master of death; that the Christ could triumph over every evil—sickness, sin, and death.  
Since, as the Bible declares, sin brought death into the world, therefore the overcoming of sin is the overcoming of death; and as sickness and sin are overcome by the same Christ power, therefore to the extent that sickness or sin is overcome by Truth, to that extent is death overcome.  
Therefore, whenever Christian Scientists demonstrate over sickness and sin, either in themselves or others, they are with the disappearance of sickness and sin death will disappear, and he as though it had not been—as, indeed, it never was.  
The Divinity of Christ.  
Christian Science, more than any other religion, teaches the Divinity of Christ. On this point allow me to quote from our text-book, Science and Health, page 26, line 10:  
"The Christ was the Spirit which Jesus implied in his own statements: 'I am the way, the truth, and the life, I and my Father are one.' This Christ, or divinity of the man Jesus, was his divine nature, the godliness which animated him. Divine Truth, Life, and Love gave Jesus authority over sin, sickness, and death. His mission was to reveal the Science of celestial being, to prove what God is and what He does for man."  
The glorious Science of being comes in the name of Christ, with

healing on its wings—to promulgate the kingdom established by him, of which there should be no end.  
**GREAT INTEREST IN THE ADVOCATE ESSAY CONTEST**  
Great interest has been manifested over the Advocate's "Little Women" essay contest, in which this newspaper offers one box and two seats in the orchestra for the matinee performance of William A. Brady's production of "Little Women" at the Auditorium, Monday, October 27.  
For the best character sketch written by a pupil in the public schools on the subject, "My Favorite Character in 'Little Women'" an entire box containing five seats will be awarded. For the best character sketch by an adult on the same subject two seats in the orchestra will be given. The word limit is 250 words and the manuscripts must be mailed to the Contest Editor of the Advocate by Wednesday noon, October 22, when the contest closes. Contributions submitted after that time will not be considered.  
**PENNY A DOSE WHEN YOU'RE CONSTIPATED**  
Nicest, Gentlest Liver and Bowel Cleansing You Ever Experienced—Listen to Me.  
Just once, try Vegets. A penny a dose, worth a dollar to any bilious or constipated soul.  
"Vegets" to-night, will clean your bile-laden liver and waste-clogged bowels so smoothly you won't realize they were acting until morning when all the sour bile and waste gently moves on and out of the system. Vegets are made entirely from vegetables, therefore harmless as food.  
Just once, to-night, take gentle, dainty "Vegets" and you'll wake up clear as a bell, no sick headache, dizziness, bad taste, no sour, acid stomach, biliousness or constipation. Get a small trial package from your druggist. You'll be crazy about them, act like velvet, never gripe; they're great.

**GRANVILLE NEWS**  
The home of Mr. and Mrs. B. O. Chesshire on College street was the scene of a very pretty wedding Thursday afternoon at 4:30 o'clock when their daughter, Ethel was united in marriage to Mr. Carl Ogle of Dexter City, Ohio. Mr. Ogle is a member of the firm of Ogle, Cline & King, who are interested in the oil fields of that region. The wedding ceremony was performed by Rev. A. J. Houck of the Granville Methodist church and was attended by the intimate friends and relatives. The happy couple left for a short trip to Columbus, after the ceremony, from whence they will go to their new residence in Dexter City.  
The freshman class of Denison University is mourning the death of one of its promising members Mr. Ernest Lowe of New York state, who died in the Newark hospital after a short illness with Bright's disease. He was a pledge of the Sycamore club and evinced every possibility of an active college career and his untimely death will be deeply regretted by the new friends he had made and by the college as a whole.  
The strong Ohio Northern team will play Denison at Granville Saturday afternoon at 2:30. Denison expects a hard contest and will put its best line-up in the game.

**"SLOPPY WORK" OF A COUNTERFEITER**  
ASSOCIATED PRESS TELEGRAM  
Washington, Oct. 10.—"Sloppy work" is the general if slangy verdict of the treasury department in announcing today its opinion of a new counterfeit \$1 silver certificate. The bill is of the issue of 1899 and, besides being printed on one piece of onion skin paper, makes no pretense of imitating the silk fibre that characterizes the genuine notes. The secret service officials say that "it should not deceive the ordinarily careful handler of money."  
A millionaire who has just died in St. Louis lived in a fashionable apartment, dressed like a tramp and fed three dollar steaks to his dog.

# LOYAL ORDER OF MOOSE

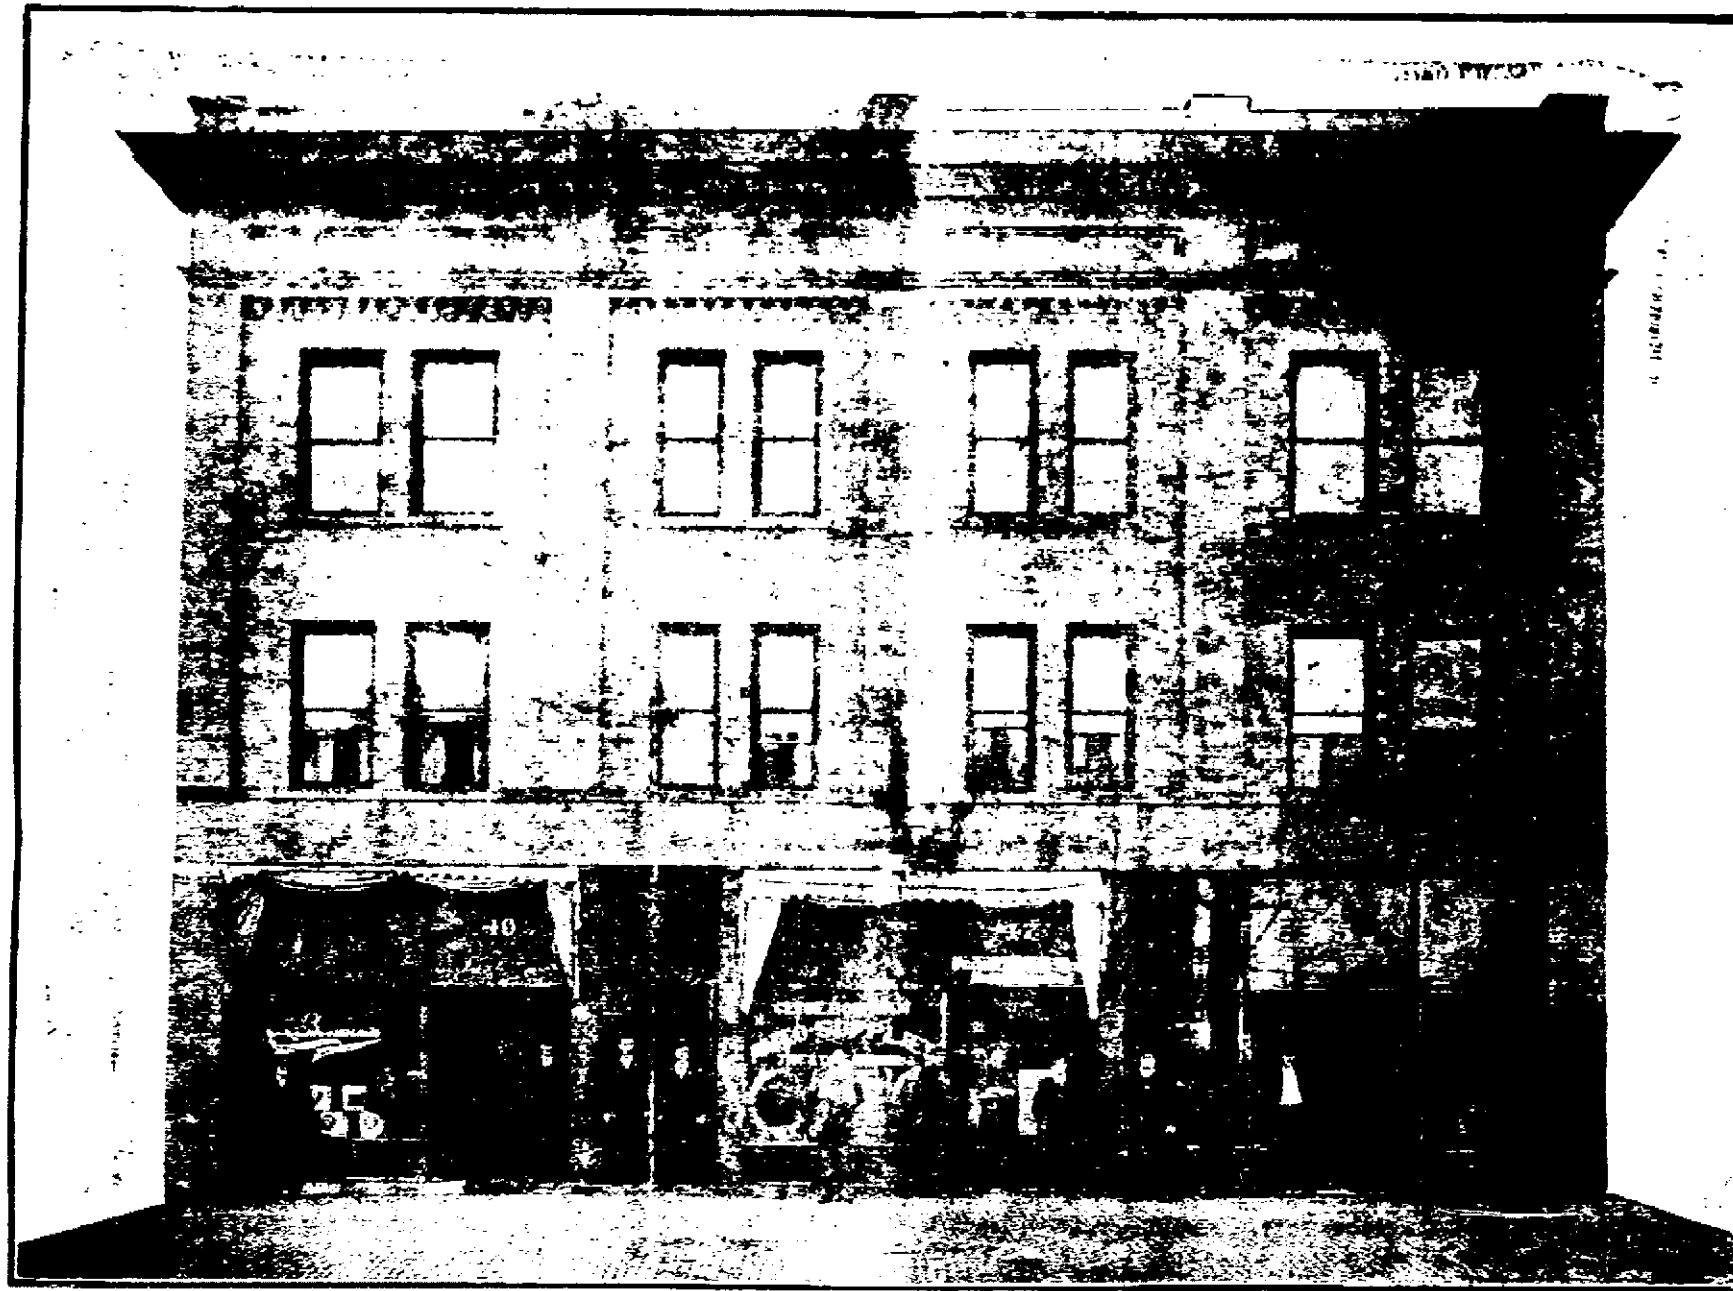

## Charter Still Open \$5.00

Monday, October 27th, will be Moose Day in Newark. A big parade and celebration will be held in the evening, the city will be aglow with red fire. The High School Auditorium will be used for the obligation of over three hundred candidates after the parade.

John J. Lentz of Columbus, Ex-Lieut. Gov. Harding of Marion will likely be on hand. Turn out and see how Moose do things. Our Slogan "1500 Moose for Newark." Columbus, Zanesville, Mt. Vernon, Cambridge, Mansfield, Belaire, Barnesville will send delegations

On the beautiful Fox River, near Aurora, Ill., thirty miles from Chicago, The Moose own and control 1,000 acres of Illinois best agricultural soil, upon which they have a Home for the Widows and Orphans, a Home for the Aged and Infirm Members, an Industrial School for Your Children.

### The Moose Home

The Moose purchased this beautiful building about three weeks ago from the Kellenberger estate at a cost of \$25,000, and in the Spring no expense will be spared to remodel it throughout. Rest rooms, library, shower baths and bath rooms will be installed for the benefit of members and their families. You should take advantage of the low fee and join this great order. You can make application through any member of the lodge. If not satisfied after joining we refund you your money. We practice what we preach.

# CHARLES LAKE

## Deputy National Director

## Moose Home---Auto Phone 1440

The Moose are teaching their members back to the farm ideas, which is the most important question before the American public. It is a Twentieth Century Move, and one that is looked upon as the Greatest Ever Accomplished by any fraternal organization.

\*\*\*

Don't fail to join this strong, clean, wide-awake social, beneficial order while you have the opportunity to do so at the Low Fee of Five Dollars.

\*\*\*

A membership card in the Moose is the best investment that a five dollar bill will make. Application can be made through any member of the lodge.

\*\*\*

The Moose have lodges of 5,000 each in all the principal cities in the United States. Philadelphia, Penn., has over 13,700 members, which is the largest individual lodge in the world.

\*\*\*

Healthy white males of good moral character are admitted between the ages of 21 and 55 years. Applicants who are above the age limit or who cannot pass the medical examination may be admitted as social members, who pay only \$3.00 per year.

\*\*\*

The Order of Moose was founded in Louisville, Ky., April 12th, 1888. (25 years ago), and its principles are Purity, Aid and Progress. It has made the greatest progress ever known in fraternal history. Any further information, call on Chas. Lake, Deputy National Director, Moose Home, Main Street.

Admission fee before charter closes, \$5.00; after that \$25.00. Dues are 75 cents a month; no assessments. Benefits are \$7.00 a week in case of sickness or accident, \$100 in case of death, and free medical attention is given to members and their families.

This is your opportunity to join at the \$5.00 fee. Newark lodge now has a membership close to ten hundred.

Biggest membership of any one lodge in Newark.

The Loyal Order of Moose is the most popular and most progressive order in the world. The order of the day. The order for you to join. Total membership, including United States, Canada, Germany, Philippine and Porto Rico Islands, 496,000 members.

Don't wait until it is too late. Join now and save money. You owe this protection to yourself and family. The organization that puts bread and the almighty dollar into the homes of its members in time of need.

Declaration of Our Principles: We aid the sick, bury the dead, inject sunshine into dark places along life's pathway. No man can take its vows and listen to its instructions without becoming a better citizen, a more devoted husband, a more affectionate parent.

There are no hungry Moose. There are no Moose in the potters' field.

## DECAPITATION OF DRESDEN RESIDENT THURSDAY EVENING

Nearly 200 Newark people were aboard Pennsylvania passenger train No. 3, Thursday evening when it struck and decapitated John Scaff, aged 50, of Dresden, when he attempted to alight from the train at Trimway before it stopped.

No. 3 is due here at 6:05 p. m. For most of the Newark passengers the experience was upcountry. A great crowd left the train when it was held up at Trimway while trainmen removed the headless body from the tracks. A number of women passengers were threatened with hysteria, and when the Newark visitors to the Conchocon fair arrived home the excitement of the adventure had not subsided. Scaff, who was a well-known figure in the moving train, rolled under the wheels of the coaches and was instantly killed.

## LECTURE TONIGHT BY MISS SEIGFRIED CHURCH OF CHRIST

Miss Sylvia Seigfried, former instructor in the Newark High school, just returned to her home in Croton after four years' absence in the Philippines as a teacher in the native schools under direction of the mission board of the Church of Christ, arrived in Newark Friday. Miss Seigfried was accompanied by her mother, Mrs. Mary Seigfried of Croton.

Miss Seigfried came to deliver a lecture on native customs and mission accomplishments in the islands to members of the congregation and their friends assembled in Central Church of Christ Friday night. She is a sister to S. E. Seigfried, former assistant postmaster here. Miss Seigfried and her mother while here Friday, were guests of her aunt, Mrs. Savilla Hoover, of North Fourth street.

## BACKACHE A WARNING YOU SHOULD HEED

It is One of Nature's First Signs of  
Kidney Troubles, if Neglected,  
Serious Diseases May  
Follow.

When the kidneys are clogged up and inactive, nature has a way of warning you.

Backache is one of the first symptoms. You may also be troubled with disagreeable, annoying bladder disorders; have attacks of lumbago or rheumatism; become nervous, tired and feel all worn out; puffy swellings show under the eyes or in the feet and ankles; and many other symptoms are not. If they are neglected, dropsy, diabetes, or Bright's Disease, which so often prove fatal, may result.

It is not only dangerous, but needless for you to suffer and endure the tortures of these troubles, when a little Croxone now will quickly and surely end all such misery.

There is no more effective remedy known for all such troubles than Croxone, because it reaches the cause. It soaks right into the kidneys, through the walls and linings; cleans out the clogged up pores; neutralizes and dissolves the poisonous uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter and sift the poison out of the blood and drive it from the system.

You will find Croxone different from all other remedies. It is practically impossible to take it without results.

An original package costs but a trifle, and all druggists are authorized to return the purchase price if Croxone should fail in a single case. Three doses a day for a few days is often all that is ever needed to end the worst backache, relieve rheumatic pains, or overcome urinary disorders.

## Bowling

**ZONULE LEAGUE.**  
Last night on the Music Hall alleys in the Zonule league the Athletics won two games from the Pirates. Steinman rolled high score while Kennedy was high average, with the fine total of 163. The scores:

Athletics	Pirates
W. Winters.....48	43
Burton.....37	40
Ward.....36	35
Gundy.....35	28
Kennedy.....46	59
Totals.....202	205

Pirates	Athletics
H. Schenk.....52	39
Braun.....42	41
Wise.....39	32
Steinman.....34	61
Adams.....38	42
Totals.....195	216

**STANDING OF ZONULE LEAGUE.**  
Games Won, Lost, Totals  
Cubs.....12, 1, 667  
Athletics.....12, 1, 667  
Pirates.....12, 1, 667  
Reds.....12, 1, 667

**Next Week's Schedule.**  
Tuesday, Oct. 14—Cubs vs. Athletics.  
Thursday, Oct. 16—Reds vs. Pirates.

In the Wehrle league last night on Wilson's alleys the Production team won three straight games from the South Foundry. Frank Schenk had high score 231, which is the highest score bowled in the Wehrle league this season. He also had high total.

South Foundry	Production
Somers.....123	116
Blank.....125	125
Cattell.....98	118
Ringer.....150	132
H. Schenk.....163	143
Totals.....680	695

Contrary to the reports that appear in the society columns, the bride does not enter on the arm of her father. What she really does is drag a reluctant old gentleman down the aisle.

### A Distinctive Rubber for Particular People

Sold everywhere by the dealers that sell good shoes.

The W. R. COSGRAVE SHOE COMPANY,  
Wholesale Distributors, Zanesville, Ohio.

## BABE ADAMS SHUTS OUT CLEVELAND

Pittsburg, Oct. 9.—The Pittsburg Nationals shut out the Cleveland Americans by a score of 5 to 0 here yesterday in the fourth game of the intercity series. The clubs are now even with two wins each. Adams for Pittsburg, pitched effectively and only once did the Cleveland advance a runner as far as third base. Carey's triple, Wagner's single and a base on balls when the bases were filled, gave Pittsburg two runs in the first inning. The Pirates made two more in the fourth on a life or Adams, a single by Carey and fumbles by Chapman and Lajoie. Kahler replaced Mitchell in the beginning of the fifth. Pittsburg's fifth and last run was scored in the seventh on a base on balls to Dolan and McCarthy's double. The official figures as given out by the national commission were: Attendance, 6944; receipts, \$5618; players' share, \$3032.72; each club's share, \$1011.24; national commission's share, \$561 \$0.

## ZANESVILLE MAN IS INDICTED FOR BURNING A BARN

Zanesville, Oct. 10.—John J. Martin, a feed dealer, was indicted by the grand jury here on a charge of burning his \$600 barn to obtain \$1200 insurance. He says he became angry because his wife was not at home, following alleged discord and burned the barn for spite. He gave bond. Another indictment is against Dr. Frank Poland of this county on a charge of circulating improper literature at Muskingum college, New Concord. He gave bond.

## The Five Districts Each Contain 50,000 Miles of Railroad

Washington, Oct. 10.—In preparing for a physical valuation of the nation's railways, the interstate commerce commission which had divided the country into five districts, announced today that each embraces approximately fifty thousand miles of railroad. The title of each district, the headquarters city and the states included in each are as follows:

**EASTERN:** Washington, D. C., Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia.

**SOUTHERN:** Chattanooga, Tenn.; Alabama, Florida, Georgia, Indiana, Kentucky, Mississippi, Ohio, Panama, Porto Rico, South Carolina and Tennessee.

**CENTRAL:** Chicago, Arkansas, Illinois, Iowa, Louisiana, Michigan, Minnesota and Wisconsin.

**WESTERN:** Kansas City; Colorado, Indian Territory, Kansas, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota and Texas.

**PACIFIC:** San Francisco; Alaska, Arizona, California, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

## DIABETES YIELDS IN HOSPITAL

Place—Good Samaritan's Hospital in Dawson City, Yukon Territory, Alaska.

Patient—G. A. Hatch, a business man of Dawson.

Case—Diabetes, believed to be incurable the world over.

Prognosis—Hopeless, not only because physicians consider it so, but the condition of the patient was so extreme that death was believed to be not far away.

A friend of Hatch's by the name of E. S. Strait, auctioneer of Dawson, heard about his plight, and called upon him. Strait told Hatch that five years ago he was in the same fix and sent to California for Fulton's Diabetic Compound, and it restored him to business. He stated that he kept some of it on hand and would loan Hatch some till more could be had from San Francisco.

To the surprise of the doctor, nurses and Hatch's friends he was soon able to leave the hospital. Instead of being in his grave, as was fully expected, four months later, found him on a visit to his old home in Portland, Maine.

Passing through San Francisco he called at our office and gave us this item in person.

If you have diabetes and are over fifty years of age you owe it to yourself and family to try Fulton's Diabetic Compound before giving up. You can get it at F. D. Hall's, druggist.

Ask for pamphlet or write John J. Fulton Co., San Francisco.

What are the most difficult ships to conquer? Hardships.

## AEROPLANE FOR POLAR EXPLORER

(Associated Press Telegram)  
New York, Oct. 10.—Captain Rold Amundsen, the Polar explorer, is reported to have ordered in Paris an aeroplane which he may take with him on his next polar expedition. According to a Frankfort despatch, Amundsen himself will take his place in the aeroplane and make his Arctic dash through the air.

## FRANKLIN.

Franklin Grange No. 1797 had a very fine display of farm and household products at the fair last week, and though winning only second place was but two points below Hanover, the winner of first. Competent judges say these displays were the equal of any shown at Ohio fairs this year, which is some credit to Licking County Granges.

The Woman's Missionary society met with Mrs. Jas. Taylor Monday afternoon.

The large new barn on the J. U. (Jack) Grove farm, with all its contents, consisting of 100 tons of hay, 400 bushels of wheat, a full line of farm machinery, wagons, buggies, harnesses, was entirely destroyed by fire at an early hour Monday evening. The origin of the fire is unknown. The loss is estimated at \$4,000. This is the third large barn burned in this township since last spring.

David H. Benner, one of our oldest residents, is seriously ill with infirmities, due to old age.

A regular meeting of the board of education will be held Thursday afternoon. A regular meeting of Franklin Grange the same day at 8 p. m.

Communion services will be held at the Lutheran church next Sunday, October 12 at 2 p. m. Rev. C. C. Roof will conduct the service. Sunday school at 1 p. m.

Mr. and Mrs. W. S. Dodson, who have lived on the Effinger farm for two years, will occupy the house on the G. W. Beall farm.

J. C. Unternaher and R. C. Hamlin had a fine display of Franklin prize-winning apples at the fair last week.

A. Smith Stevens & Son and F. C. Osburn exhibited their herds of Jersey cattle and Poland China hogs at the fair.

The ceremony was a brilliant review of troops.

## GAS, DYSPEPSIA AND INDIGESTION

Time "Pape's" Diapetsin—in five minutes your sour, bloated, gassy stomach feels fine.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapetsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble have made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from your drug store and then if you should eat something which doesn't agree with them, if what they eat lays like lead, ferments and sores and forms gas; causes headache, dizziness and nausea, eructations of acid and undigested food—remember as soon as Pape's Diapetsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

## Does Your Stomach Trouble You?

Mayr's Wonderful Stomach Remedy is Successfully Taken in Cases of Stomach, Liver and Intestinal Ailments

And One Dose Has Often Dispelled Years of Suffering

## CONGRESS TO AID RURAL SECTIONS

Expect Bill to Pass, Providing Educational Features.

MANY WARM SUPPORTERS.

Commission to Investigate and Report to Washington—Supporters Who Were Disappointed Once Before Determined That Measure Must Be Considered at Next Session.

By ARTHUR W. DUNN.

Washington, Oct. 10.—[Special.]—During the last congress there almost passed what was called the Smith-Lever bill of the Page bill, providing for government aid to education, particularly in rural communities, coupled with agricultural instruction. The bill failed in conference.

Congress is now passing some such measure now. It is proposed to have a commission make an investigation and report what ought to be done. By some this commission is considered as simply a method of delay, by others it is believed that the commission will furnish information which will enable congress to avoid mistakes.

The friends of the measure propose that one thing certain shall be accomplished—that is, that legislation must be passed during the next session. They will not consent to any delay which will put the matter over until the start session, as was done in the last congress, which insured its defeat.

The Changing Times.

Not more than eight years ago Congressman Davis of Minnesota introduced and advocated a bill similar to that which is to be enacted into law relative to vocational education. He was then a member of the committee on agriculture, where the bill was considered. Speaker Cannon did not like the bill, and at the next congress he removed Davis from the committee. At the beginning of this congress Minority Leader Mann made Davis a member of the appropriations committee, which is of higher rank, and the vocational bill which Davis first championed is to be enacted into law. "Time changes all things."

There Are Other Instances.

During the consideration of the cotton futures amendment to the tariff bill Congressman Humphreys of Mississippi called attention to other changes which time makes. He said that the Democratic party denounced the tax on state bank issues as unconstitutional; that it denounced the oleomargarine tax in the same strong terms, especially those from the cotton states, because cottonseed oil was hit. "And yet," he said, "the very first measure of the new Democratic administration proposes to carry a similar unconstitutional taxing provision."

However, the proposition was eliminated, but we have not heard the last of it.

It Is Pronounced "Pinchot."

A. Mitchell Palmer of Pennsylvania was rasping the Progressive party and spoke of a "Pinchot" consisting of Theodore Roosevelt, Jane Addams and Gifford Pinchot.

He pronounced it as it is spelled, sounding the "t."

"The gentleman's pronunciation is as bad as his information," interjected the Progressive leader, Vic Murdock.

"I know his name, all right," replied Palmer. "He has lived in my district all his life and voted against me every time I have been a candidate. I know his name. Up there we have Anglicized him and call him Pinchot, as he calls himself."

Another Caucus.

It may take another caucus to pass the currency bill, but the administration is not afraid of caucuses. Those men who sacrificed themselves on the tariff bill want those opposing the currency bill to make some sacrifice, and they will invoke the caucus if there is no other method.

Party Responsibility.

"Members of this house are responsible to the people of their districts and not to any party," declared Leader Murdock of the Progressives. That may be true, but the members of the Democratic party are aware that if they do not stand by their party, as represented by the president, the people of their districts will not stand by them. That is why there has been such a solid majority for the Democratic policies during the present congress.

Plans for the enactment of tariff bills "in the open" and without caucus restriction sound well, but it may be thoroughly understood that if every man was to have his own way, vote his own convictions, it would be difficult to pass anything like a tariff bill.

Committee Humorist.

Senator Nelson is the humorist of the senate lobby committee. Senator Overman has a fine sense of humor, but as chairman he is obliged to be dignified. Senators Walsh, Reed and Cummins are very serious at all times. "Life is real, life is earnest," with them. And so it falls to the Minnesota senator occasionally to inject a remark which relieves the tense situations and brings out the ridiculous in the questions asked.

James Lineham spent Wednesday in the capital city.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets.

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle.

Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards' Olive Tablets, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for catenol, are getting in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. The Olive Tablet Company, Columbus, Ohio.

Good news in Classified Columns.

## First Things

The first number of the Edinburgh Review was published 111 years ago today, by Francis Jeffrey, the Rev. Sydney Smith, Henry Brougham and other writers. The purpose of the publication was not primarily to make money, but rather to mold public opinion. Constantine once took the role of publisher under an agreement whereby the writers were to claim no payment until after three months had been passed. The plan was so successful that after the first year the editors and contributors were well remunerated. Jeffrey, who has been called "the greatest of all magazine editors," was placed in a position of control of the review and he gave to the publication an influence that extended all over the reading world. The review, a combination of literary skill and editorial sagacity, gave to the Edinburgh Review in its palmy days a power and force, never before or since equalled by any similar periodical.

First false teeth were made in Paris 117 years ago.

## EDUCATE GIRLS IN SCHOOLS FOR EFFICIENT WIVES

(Associated Press Telegram)

Washington, Oct. 10.—Endorsement of the effort to educate high school girls along lines that would tend to make them efficient wives and housekeepers is contained in a statement issued today by the United States bureau of education. The federal educators point to the course laid down by the Wadleigh high school in New York city as being a model of its kind. The course has been watched carefully by the bureau of education and its practical side has been advanced by it. The course is declared to be both practical and cultural, giving opportunity with the acquisition of much of the information that ordinarily would not enter into the task of managing a home.

## BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD—END CATARRH

Instant Relief When Nose and Head are Clogged from a Cold, Croup, Hay Fever, Catarrhal Discharges, Dull Headache, Etc.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely, dullness and headache disappear. By morning, the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm."

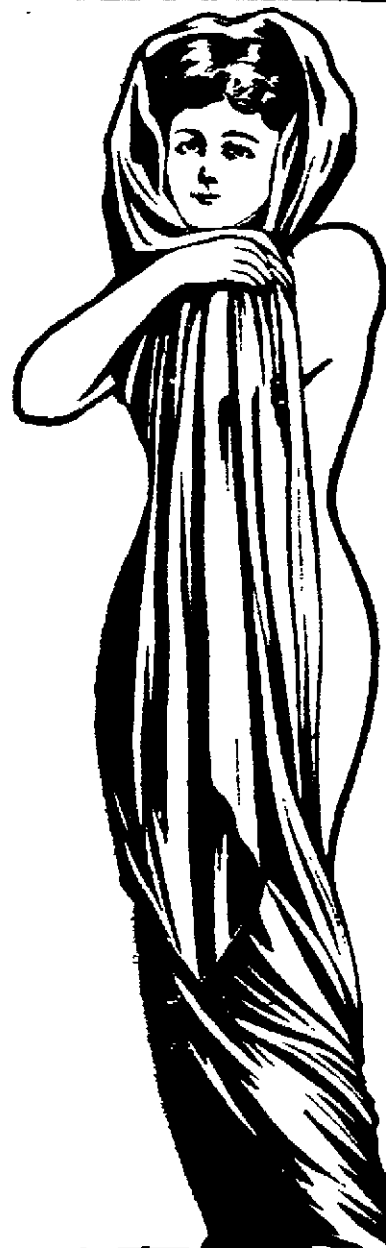

at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which clogs the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless. Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

It's false economy to use cheap-looking stationery. You can't go wrong if the Advocate prints it

# Sweetheart Coupon

Below-Take it To Your Dealer

TODAY is "Sweetheart Day." Below you'll find the coupon. It's good for a full-size cake of the best toilet soap ever made. This is an unusual offer—but "Sweetheart" is an unusual soap. We want you to try it at our expense. The risk is ours—not yours. The proof must come in use—not in words.

The Statue of Purity means more to you than the Statue of Liberty does to the millions of strangers who enter New York's harbor each year—it is symbolic of

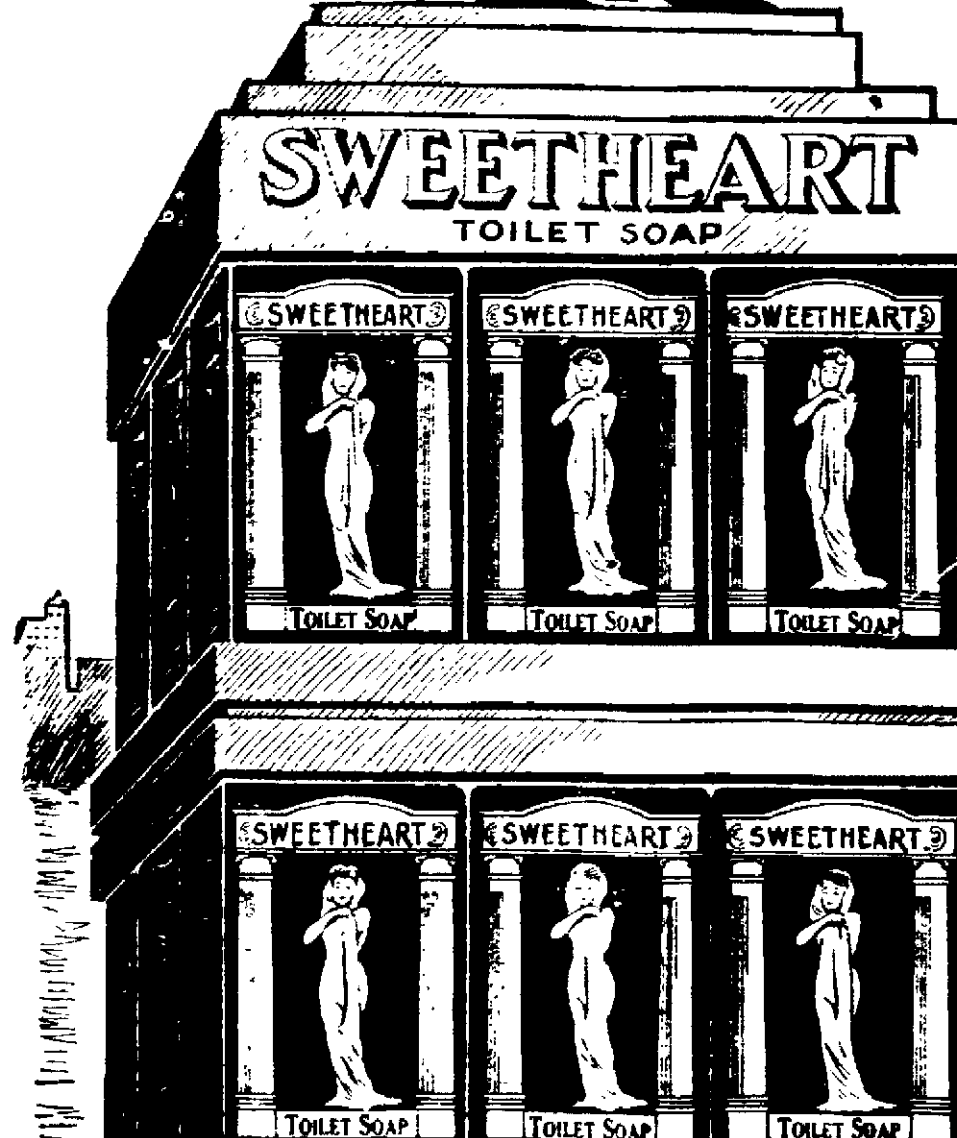

## SWEETHEART TOILET SOAP

Sweetheart Soap is, first of all, absolutely pure. It is made from the highest grade products—contains benzoin, cold cream and glycerine—ingredients which help soften, purify and refresh the skin. Sweetheart is scented with an exquisite Bouquet perfume—milled by a special process, making it as fine and as smooth as the most expensive French soaps.

Sweetheart Soap is a quality soap at an ordinary price. More than a million women have tried it—and found it to be the best soap. That's why "Sweetheart" is today the largest selling brand of toilet soap in the world.

Be sure to try it. Clip the coupon now. Take it to your grocer with five cents—and receive two full size cakes—free of cost. We pay the dealer for the free cake. This coupon is good wherever this paper circulates.
